Introduction

In August of 2017, Southern Imperial and FFR Merchandising joined forces as siffron.

The siffron brand reflects the unparalleled strength of our combined businesses. Together, we deliver excellent service, a comprehensive product selection, and increased manufacturing and sourcing options, all resulting in an industry-best value proposition for our current and prospective customers.

Moreover, while we were two of the premier fixture and display companies in the industry on our own, the combined business has become the pre-eminent leader in the retail display and fixture industry. Together, we leverage over 100 years of combined industry knowledge and expertise to deliver innovative solutions that solve problems for retailers now and in the future.

a message from siffron

siffron™
always on

At siffron, our goal is simple: Deliver an unmatched customer value proposition via our Operational Excellence business strategy. We do this by engaging highly-aligned cross-functional teams in a pay-for-performance culture. We remain singularly focused on the creation of a world-class customer experience, all within our dynamic and ever-changing retail landscape.

We continue to invest heavily in our people, business processes, global manufacturing capabilities, and a steady pipeline of new products and technologies. Most importantly, we now find ourselves in a position to give back to our communities, a commitment we take very seriously.

We look forward to our expanding partnership with you, and thank you for affording us the opportunity to earn your business.

The foundational pillars of our business

worldwide footprint to deliver world-class solutions

siffron has facilities across the U.S. and China to provide unmatched service to our customers. We can tackle any project from a design, budget, and timing perspective, and offer the best combination of sourcing and manufacturing options in the industry.

We also have complete service and logistics support to provide end-to-end assurance that your project will be made to high quality standards and delivered on time.

ontask

design and prototype services

siffron has world-class facilities to meet the demand for first-class solutions. We have manufacturing plants in Illinois and China with the ability and capacity to respond within the various time constraints of our customers.

factory within a factory

siffron has developed a factory within a factory to better service our customers. This smaller production area is ideal for custom runs that are less than our standard MOQ, small volume store test opportunities, and for rapid prototyping. Services in our factory within a factory duplicate our production capabilities, and include wire bending, welding, metal and tube fabrication, and special assembly or kitting. Having a dedicated facility for small production runs enables us to meet the wide variety of customer demands without disrupting normal production flow.

capabilities

Domestic Manufacturing: Our wire and metal fabrication and production, as well as our plastic extrusion production capabilities, provide competitive prices with shorter lead times.

Design & Prototype Services: We leverage our staff designers and engineers to make sure we are on the cutting edge when it comes to creating customized solutions for our customers.

Stock Product Selection: Retailers have relied on our solutions for over 60 years. We offer over 6,000 stock products for display and fixture needs in every area of retail.

International Manufacturing: Our manufacturing facilities in Xiamen, China provide added value and cost savings for larger projects and roll-outs.

Worldwide Sourcing: We utilize our relationships from around the globe to bring the best solutions and value to our customers for a variety of product needs.

ondemand

custom display solutions

Whether it is a new product or a custom solution, we take extreme care to develop solutions that are thoughtful of every aspect of their impact on retailers and their environments. We are determined to develop world-class products that provide the utmost value for our customers, today and in the future.

We offer thousands of stock solutions in our ever-growing catalog, but we're not just a catalog company. Over half of our business is custom - custom fixtures and custom displays. From simple to complex, we design and produce custom displays and fixtures that highlight your products and produce sales. Our solutions are affordable, easy to use, and make your product the star. Everything works in concert to achieve the ultimate goal – increased sales.

NEXT® 2.0 Shelf Mount

NEXT® 2.0 Pull-Out Tray

new

NEXT® 2.0 Bar Mount

PATENTED

NEXT® 2.0

Self-facing merchandising tray system

Go to page 130

Benefits

- Self-facing – keep product organized and accessible
- Open-weave construction to reduce the overall weight and cost
- Most durable tray in the industry
- Patented
- Features bar-mount and shelf-mount versions
- Loads merchandise all the way to back of the tray

NSF

Most durable tray in the market

NEXT® 2.0 allows retailers to further streamline appearance and simplify labor while saving money. The modified design includes open-weave construction to reduce the overall weight and cost, and the pusher paddle extension allows for easy and complete product stocking. Additionally, customers benefit from a more organized and cohesive layout featuring enhanced product depth and merchandising which, in turn, increases sales.

Each item remains faced and visible to the customer for easy product selection. By incorporating the NEXT® System into a planogram, retailers can eliminate expensive shelving and put more product in its place.

new

Kwik-Set™ Wide Base Pusher

Kwik-Set™ Tall Divider

Power Zone® Kwik-Set™

Adjustable self-facing pusher system

Go to page 140

Benefits

- Spring-loaded lock tab for easy adjustment
- Self-facing - reduces labor and cost
- Easy to install, minimal hardware
- Keeps product organized
- Adjusts to fit various sizes of merchandise
- Now available with wide-base pushers and tall dividers

Total shelf management with one comprehensive system

Power Zone® Kwik-Set™ Self-facing System is a labor-saving, component-based system flexible enough to accommodate the widest range of product shapes and sizes throughout the store.

The unique and flexible design allows it to accommodate most package shapes and sizes in nearly every category throughout the store. From narrow health and beauty packaging to large or bulky detergents, bagged coffee and candy, and stacked products, this single system can keep shelves organized and products easily accessible for shoppers.

Kinetic Shelf

All New - Black Kinetic Shelf

Kinetic Wire Shelf

new

Kinetic Shelf

Go to page 155

Drop-in, self-facing retail shelf

Benefits

- Gravity-feed
- Low friction surface
- Easy to install
- Reduce labor costs
- Flexible shelf design
- No tools required
- Self-facing
- Time-saving

Improved shelf management with less labor

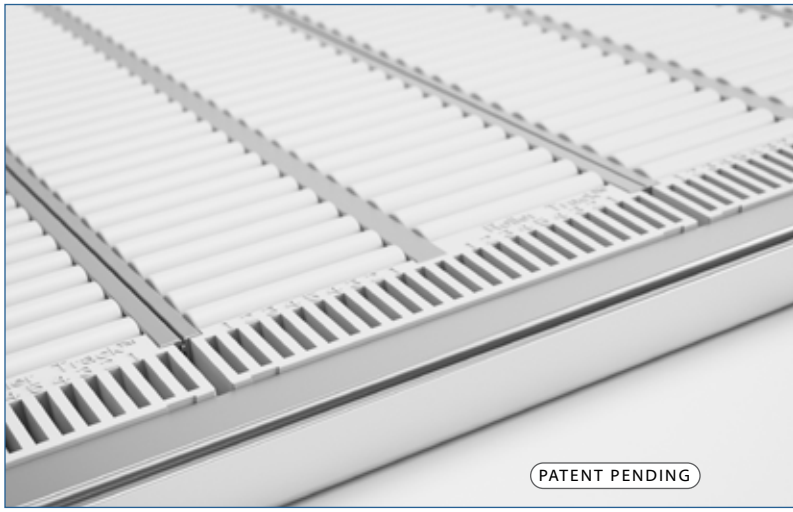

The new patented Kinetic Shelf from siffron makes shopping easy by providing a simple product facing and customizable shelf planning solution for retailers. Featuring an ultra slick surface, the Kinetic Shelf maintains low friction to ensure merchandise stays properly faced and accessible to customers. Shelf channels snap into the shelf at the front and back with no additional components or fasteners, and can be aligned to meet varying sizes of merchandise.

The Kinetic Shelf can be mounted at an angle, providing a gravity-fed solution to facing merchandise, or horizontally where a low strength pusher system can be applied to keep merchandise organized. The result is a simple solution to minimizing shelf facing labor and retail upkeep.

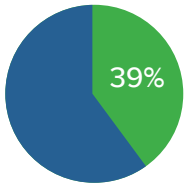

new

Roller Track™

Drop-in, self-facing roller shelf

Time Saved

Go to page 138

Benefits

- **For back-fed coolers, tests show a reduction in time fronting and refilling of over 39%***
- Easy to install, use and maintain
- Installs directly on flat shelving
- Easy to re-merchandise
- Perfect for back-loaded coolers

Maintain stock rotation and improve visibility

Roller Track™ delivers full visibility of products and allows the shopper to make their choice quickly and easily. The added benefit to retailers is gravity-fed facing - a low maintenance way to organize product and identify empty facings.

Roller Track™ is a shelf-ready unit that can overlay on the shelf fixture. The gravity-fed system simplifies stock replenishment whether filling from the front or rear.

* Nielsen Study: Tidsstudie i butik April 2015

LM Tag™

Light / motion sensor security tag

Go to page 432

Benefits

- LM Tag™ is ideal for multiple product types, lines and categories
- Prevent theft
- Increase sales
- It doesn't damage or distract from brand packaging
- Alarms at the point of concealment
- Customers access product without staff assistance

Alarms at the point of concealment

The LM Tag™ uses the combination of a light sensor and motion detector to notify when the product is both in motion and concealed. It is the only device on the market that alarms at the point of concealment, alerting you before product walks out the door.

When a product is concealed in a bag, under a coat, or in a pocket and there is movement of the product, the LM Tag™ turns on and counts down for a period of time and beeps lightly. After a designated period, the tag will alarm to alert store staff.

LM Tag™ Slim

- Slimmer design (only .35” deep)
- Prevent theft and increase sales
- Keep branding visible
- Alarms at the point of concealment

Go to page 432

LM Tag™ 3-Alarm

- 3- Alarm System
  - 1st alarm - Light and motion sensors trigger if product is concealed and activates if LM Tag™ is removed from product.
  - 2nd alarm - EAS gate alarms when LM Tag™ passes through.
  - 3rd alarm - LM Tag™ alarm triggers when passing through EAS gates at store exit points.
- Prevent theft and increase sales
- Keep branding visible
- Alarms at the point of concealment

Go to page 432

LM Tag™ with SONR™

- Interfaces with SONR™ Echo Box
  - Notifies retailers of shopper activity
  - Alarms if product is moved or concealed
  - Relays notifications to SONR™ Echo Box to alert personnel
- Prevent theft and increase sales
- Keep branding visible
- Alarms at the point of concealment

Go to page 435

SONR™

Open retail security system

Go to page 434

Benefits

- Alarms at point of theft
- Alerts retailers to store activity:

  Tier 1 – Shelf/facing level alert

  Tier 2 – Push notifications and alert throughout store with SONR™ Echobox

  Tier 3 – Integrate into on-site security systems
- Battery powered – no cords required
- Keeps product accessible
- Easy to install
- Integrates with existing store security systems: overhead PA, PVM

Multi-tiered loss prevention solution

The SONR™ system provides more than audible beeps at shelf level. It protects merchandise throughout the store. Utilizing the SONR™ Echo Box to help associates manage alerts via push notifications on and off the floor grants retailers the ability to safeguard their merchandise while maintaining an open and shoppable environment for their customers. Integrate SONR™ with existing store security systems to create a tiered alert system that ensures retailers are always aware of activity anywhere in their store.

SONR™ Hook

- Display hook designed to guard against product sweep
- Notifies store associates when customers have chosen merchandise by emitting a warning beep
- Use with SONR™ Echo Box
- No deactivation device required

Go to page 435

SONR™ Pusher

The SONR™ Pusher is a flexible and open security system integrated into new or existing product pushers that notify store associates of activity at the shelf and store level. Retailers can scale the SONR™ Pusher to adhere to their store needs from a singular facing to a complete shelf. The SONR™ Pusher is battery powered, requiring no hard wiring for setup and can be retrofitted into existing Power Zone® Self-facing Systems as well as new installs.

Go to page 436

SONR™ Crossbar Shield

The SONR™ Crossbar Shield is a new addition to the SONR™ Product Family. Designed to be a cost-effective solution to loss prevention in grocery, pharmacy or convenience stores, the SONR™ Crossbar Shield prevents sweep and theft for an entire row of facings on a shelf. The SONR™ Crossbar Shield's low-profile design preserves retail space, ensuring that retailers do not lose any additional space to sell merchandise.

Go to page 437

SONR™ Echo Box

- Control box for SONR™ products that mimics warning beeps and alarms
- Resettable alarm box
- Install up to 25' away
- Features multiple RF frequency options for connecting a variety of different product groups

Go to page 435

new

Turtle 2.0

Easy-to-use security tag
for packaged items

Go to page 439

Benefits

- Prevent theft
- Prevent unauthorized opening of packaged goods
- Stack products without any restrictions
- Keep items shoppable
- Rapid application and removal
- No adhesive residue when removed from packaging or promotional sample

Next generation retail merchandise protection

Protect packaged and display merchandise in your stores using the new Turtle 2.0 from siffron. Turtle 2.0 combines the securing of boxed retail products, similar to the original Turtle, along with EAS gate functionality. Turtle 2.0 provides improved sensitivity - by limiting false alarms from loose strapping - and streamlined installation, while ensuring greater protection from potential offenders.

1st alarm: Armed Turtle triggers EAS Systems to alarm

2nd alarm: Manipulating or removing Turtle from package triggers Turtle to alarm

3rd alarm: AM or RF antenna or deactivator signals Turtle to alarm

new

Loop Tag Alarm

Multi-purpose security tag

Go to page 442

Benefits

- Prevent theft
- Protect packaged merchandise or display items
- Keep items shoppable
- Rapid application and removal

Protect open merchandise and improve security

siffron's new Loop Tag Alarm is an all-in-one EAS gate sensor solution. It is easy to set up and is equipped with a tether to strap to the merchandise. The Loop Tag Alarm securely safeguards merchandise from potential offenders while keeping it accessible for honest customers.

Product Displays - Items set up for store promotion are vulnerable to potential offenders. Loop Tag Alarm eliminates possible theft by securely attaching to the displayed merchandise while keeping it accessible for legitimate shoppers.

Store Merchandise - Protect high dollar and high theft store merchandise of any size. Hand-held home appliances, electronic devices, even bicycles can be easily tagged and protected.

new

Shogun Tag™

Low-cost 3-alarm protection

Go to page 443

Benefits

- 3-alarm protection:
  - Alarm 1 - Plunger
  - Alarm 2 - EAS gate
  - Alarm 3 - Tag alarms when reacting with the EAS gate
- Reduced footprint for planogram and merchandising value
- No cables to distract from product packaging
- Replaceable adhesive back
- Low-cost solution
- Tag is 1.26" W x 1.57" L x .38" H and smaller than competitive products

Quick and effective alarm protection for packaged products

The cost-effective Shogun Tag™ is a small yet powerful product protector. Smaller than competitive products, the patent-pending Shogun Tag's provides theft protection with a reduced footprint, which is ideal for smaller products and retaining merchandising planograms. The Shogun Tag's patent-pending, three-alarm protection secures products while allowing customers to access merchandise without staff assistance. Appropriate for multi-product category uses, the Shogun Tag features a replaceable adhesive back that isn't cluttered with cables to distract from product packaging.

new

P.O.P. Security™ Invisi-Shield® System

Go to page 450

New notched panels guide intuitively customers

Benefits

- Anti-sweep shield for hooks and shelves provides security for high-value products, while allowing consumers access to product for purchase
- Under-Shelf style is available
- Optional Security bar covers to provide added protection to consumer product when using Gondola Upright and Standard Shelf-Top Styles
- High-impact clear plastic panels are nearly unbreakable, even in high-traffic environments

Prevent sweep and protect merchandise

P.O.P. Security™ Invisi-Shield® System* is a loss prevention item that enables consumers access to the products they wish to purchase without assistance from store personnel. The panels feature contoured edges for ease of shopping and are available in several styles to protect products that are merchandised on gondolas with perforated shelves.

new

SONIQ2™ Alarm Hook

Theft-deterring display hook

Go to page 438

Benefits

- A simple beep upon product removal denotes activity and deters theft
- Alert retailers to store activity
- Keep items shoppable
- Programmable function can be set to “beep only” mode or full alarm mode

Reduce product sweep while increasing sales

The SONIQ2™ Alarm Hook has an open system design that protects product and allows customers to remove and replace product without assistance. Features switchable modes so retailers can choose between an alarming function and a “beep only” mode. The new deactivation method utilizes a light sensor eye located behind the label holder. Use the innovative strobe key to deactivate.

Beep Hook

- Integrated beep/alarm activates when product is removed
- Anti-sweep design - adding curvature to the product hook creates barriers to sweep and makes product removal more deliberate
- One-piece design is easy to use and install
- Long battery life – expected 1+ years with replaceable battery
- Integrated label holder showcase price labels and signs
- Used with optional security straight-entry back, or traditional straight-entry back

Go to page 438

Solo-Lock™ Hook

The new Solo-Lock™ display hook provides complete security for merchandise displayed on pegboard. Eliminate theft and product sweep by utilizing this one-component security solution.

- Keyed lock ensures product security and prevents sweep
- One component security hook system - secures hook to pegboard
- Closed security system
- Same key opens all hooks

Go to page 461

Cooler Door Chime

Doors being left open in the retail environment can cause many issues. For items in coolers and freezers, it can lead to spoilage due to product not maintaining its proper temperature. For other areas, it can mean there is suspicious activity occurring and product may not be protected.

- Alert retailers to store activity
- Keep items shoppable
- Door Chime activates when the door has been left open a predetermined amount of time, ensuring that store staff are only alerted when there is an issue
- A secondary alarm activates after an extended time where the initial chime has not been remedied

Go to page 444

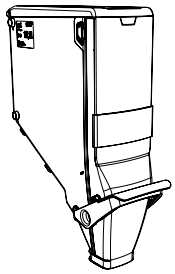

new

4eBins™

Gravity-feed bulk display bins

Go to page 382

Benefits

- Pick and mix various products
- First-in, first-out merchandising
- Portion control
- Easy to use
- Gravity feed for easy filling
- NSF Certified

Next generation in bulk merchandising

A bulk offering is an effective use of store space and creates differentiation. Introducing bulk bins is an easy way of enlarging or adapting your product offering to meet the needs of your local market demands.

Create destinations within your store where shoppers can engage fully with pick & mix of nuts, candies or cereals. Not only do bulk bins encourage greater interaction, they also give consumers more freedom to purchase the exact combination and quantity of the product they want.

NSF BPA/EA FREE

The GB4e100-12, 5L product is NSF Certified under HL Display Gilwice Sp. Z.o.o.

new

Scoop Bins

Scooping bulk display bins

Go to page 386

Benefits

- Pick and mix various products
- First-in, first-out merchandising
- Portion control
- Easy to use

Treat shoppers to a transparent experience

Improve customer interaction and differentiate from competitors by adding bulk Scoop Bins into your retail environment. Bulk Scoop Bins, provide customers the opportunity to pick and mix various products at their discretion.

Using included product scoops attached to each bin, customers can fill up as much or as little product as they require. This reduces packaging waste and ensures the displayed product is consumed without waste.

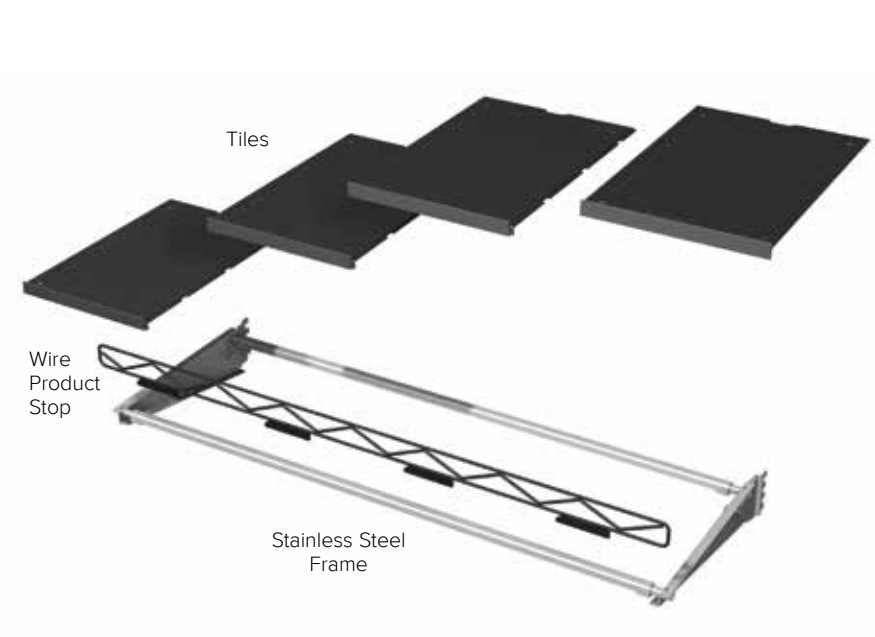

Scoop Bins grab customer attention, are easy to use, and improve overall gross margins versus similar pre-packaged products.

BPA/EA FREE

Fresh
Keeps products clean with antimicrobial material, machine washable tiles and zero-rust frame.

Fit
Quick snap fit of the tiles to the stainless steel frame.

Flexible
Setup planograms to fit retailer space using our flexible system with adjustable widths and angles.

Assembled Grid shown with 1' W, 2' W, 3' W and 4' W shelves and clear product stops.

PATENT PENDING

new

Fresh-Fit® 3

Maximize the true potential of your fresh area

NSF BPA/EA FREE FDA Approved

Go to siffron.com

Benefits

- The only NSF Certified produce shelving on the market
- Antimicrobial ABS tiles are 100% dishwasher safe
- Stainless steel rustproof frame is long lasting and guarantees food safety
- Adjustable angles with four different shelf positions (0°, 10°, 20°, and 30°)
- Display shelves are available in four different widths (12", 24", 36" and 48")
- Shelves include integrated baffle support to easily install baffles to ensure temperature control

Keep Your Displays Focused on Fresh Merchandise

Fresh-Fit® 3 is a multi-tiered display shelf system that is designed to optimize product presentation and ensure merchandise stays fresh and visible. Easy to install without any tools required, Fresh-Fit® 3 mounts on an adjustable upright grid system to allow retailers the flexibility to create a customized display area that fits into their store.

The Fresh-Fit® 3 shelves are lightweight, rust-proof, and feature removable shelf tiles for easy change-out and fast cleaning. Fresh-Fit® 3 shelf tiles are formulated with an antimicrobial additive to ensure food-safety. Standard perforations along the display shelf allow for use with a multitude of different product accessories, such as inventory blockers, dividers, and product pusher systems. Perfect for center store, fresh area or cooler applications, the Fresh-Fit® 3 is a perfect universal solution for food-safe product display.

new

Impulse QueueLane™

Quick setup retail display
for queue lines

Go to page 415

Benefits

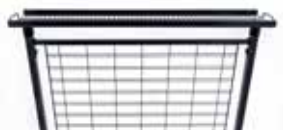

- Control traffic flow in your store
- Completely configurable to retailers needs
- Works with a multitude of display accessories: hooks, bins, racks and other display systems
- Increase sales of point-of-purchase items

Allura™ LED

LED lighting display solutions

Go to page 180

Benefits

- Low-voltage
- Display adaptability
- Delivering bright light for affective illumination
- Energy and cost savings, up to 80-90%, when compared to traditional lighting
- Free of toxic chemicals to reduce your carbon footprint
- Over 50,000 hour lifespan

Quality illumination with minimum energy consumption

LED (Light Emitting Diode) technology is changing the face of retail. Its low cost, extended life, and flexible applications provide a sophisticated lighting and energy management solution that will help balance design and performance, with your budget while committing to sustainability.

LED lighting platforms create extraordinary value by providing high-quality illumination and color rendering of products for visibility, visual comfort, display aesthetics and minimum energy consumption.

Allura™ Ultra-Mini LED Rigid Bar

- Smaller profile, more power output
- Reduce power usage
- Low profile for easy setup lighting into new or existing displays
- Extended product life
- ETL Certified

new

Allura™ Bump Light

Vibration-activated, battery-powered backlit sign for product promotions

Battery powered. No wires!

Go to page 185

Benefits

- Allura™ Bump Light is battery powered. Requires no wires and can be installed anywhere
- Motion sensor version requires power cord.
- Motion & vibration activated – only triggers when customers are present
- Installs onto display hooks, shelves or shelf edge (mounting brackets required)
- Captures customer attention
- 5V micro USB or battery powered (3 AA batteries)
- ETL Certified

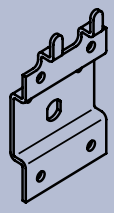

Draw attention to new products and promotions

The new Allura™ Bump Light from siffron brings a new way for retailers to draw attention to their merchandise. Installed on display hooks, shelves or shelf edge, the Allura™ Bump Light uses motion and vibration to activate when customers are near and lies dormant when foot traffic is low. The Allura™ Bump Light is the perfect addition to your retail displays for new products or new promotions.

Mounting Brackets

Pegboard and Slat Wall Mounting

3” Grid Mounting

Locking Plate

Allura™ Flex Light

Go to page 185

Flexible light source

Benefits

- Mounts to pegboard, slat wall, wire grids, or flat wall surfaces
- Mounting brackets included
- Powered by 120v power supply with a 5’ cord for a long-lasting service
- Power supply included
- 3 year warranty
- UL approved

Provide overhead lighting for spotlight merchandise

Allura™ LED Flex Lights mount to pegboard, slat wall, wire grids, or flat wall surfaces, using the included hardware. Retailers can adjust the light placement to suit their needs. Allura™ LED Flex Lights are powered by standard 120v power cords and are designed for long-lasting service.

300	24v	4500k	80+	No	50k Hrs	5

Space Max™ Promo Riser

Draw customer attention to product on shelf with the Space Max™ Promo Riser. The Riser elevates product one inch off shelf to create a platform for displaying newly-released and promotional products. The integrated standard c-channel and the optional End Cap Kit can provide premium space for brand and promotional messaging.

- Riser elevates display 1” from shelf so product stands out from surrounding items
- Integrated 1.25” H c-channel allows for branding or promotional message
- C-channel is compatible with standard sign channel items for additional versatility and messaging

Go to page 378

Space Max™ Promo Shelf Extender

Make your product stand out in a crowd with the Space Max™ Promo Shelf Extender System. The Shelf Extender displays product 3.5” into aisle to draw customer attention to newly-released, promotional or cross merchandising products.

- Two mounting styles are available, Under-Shelf and Shelf-Top
- Two Shelf-Top Mounts are suggested for the 6” W Shelf Extender; additional Shelf-Top are suggested for the 6” W Shelf Extender; additional Shelf-Top Mounts are recommended for wider Shelf Extenders and/or for heavy products
- Integrated 1.25” H c-channel allows for branding or promotional message

Go to page 375

Serpentine Shelf Extender

To strengthen brand visibility and offer an extra promotional push, consider using the Serpentine Shelf Extenders in addition to your promotional signage. Four feet long and constructed from durable steel, the shelf extender inserts easily into existing perforated shelving. Capture consumer attention on the retail floor by creating a dramatic, curved shelf edge which extends 3" into the aisle to prominently display a row of products.

- Serpentine Shelf Extenders add style and display space to existing gondola shelving
- Highlight a single shelf, section, or create a continuous run
- Serpentine Shelf Extenders extend an additional 3" from shelf at crown creating display opportunities

Go to page 374

Locking Fastback®

Locking Fastback® is composed of a 2-piece assembly that snaps over the hook insert, preventing shoplifters from removing the entire hook (and the merchandise along with it).

- Reusable and effective, the Locking Fastback® is a perfect solution for cost effective loss prevention
- Straight entry design
- Secures hook to pegboard
- No tools required
- Works with all R33 series peghooks in .186" and .212 diameter, as well as a variety of security hooks.

Step 1:
Install back into the pegboard

Step 2:
Insert display hook

Step 3:
Snap on lock

Go to page 464

Magnetic Dividers

Clear Magnetic Dividers from siffron provide a quick and easy way to manage and organize merchandise. The Magnetic Divider is ideal for use on industry standard steel display shelving.

Ordinary adhesive dividers offer only a one-time use and removing them is difficult and messy. Magnetic dividers remove the hassle with no cleanup involved. Just place on the shelf and you're ready to go!

Go to page 176

Slim-Line Dividers with Integrated Fasteners

Easy-to-use Slim-Line Divider with Integrated Fasteners offers an economical and convenient solution for managing products on most perforated shelves. Integrated fastener tabs engage in front shelf perforations to secure the divider in place.

To make the standard T-style divider into an L-style divider, simply snap off one side of the base and position on shelf.

Go to page 174

Data Strip® SuperGrip® Label Holders

Data Strip® SuperGrip® Label Holder for Cooler/Freezer Shelving is designed to fit over most cooler and freezer shelf channels and enables both price signage to be prominently displayed.

- Designed for a secure fit on cooler/freezer shelves
- Display both pricing tags and promotional signage
- Integrated SuperGrip® sign holder displays tag or index stock

7152515543	R22	Replacement Back	White	100

1/2” Fastback® Hook

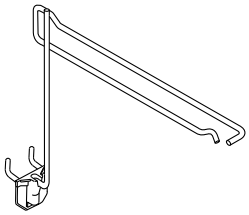

- Designed for optimum spacing on displays with 1/2” on center perforated paneling (used in many cosmetic displays).
- Ideal where thin products are being displayed.
- Works well in 1/2” spaced perforated paneling, corrugated, plastic, and vacuum formed displays.

Item No.	Ref. No.	Dimensions	Finish	Pack
7121173362	RHF-2	2” L x .149” Dia.	Galv.	200
7120028906	RHF-4	4” L x .149” Dia.	Galv.	200
7123210961	RHF-6	6” L x .149” Dia.	Galv.	200
7156233381	RHF-100	Replacement Back	White	100

Scan Space Hook

- Creates an extra row at top of gondolas for increased merchandising space. Ideal for checkouts and short displays.
- 6” height, 8” usable length.
- Works in 1/4” perforated paneling and slatwall.
- Label holders sold separately.
- Use Quad-Wire, Fast Tag, R35, or metal plate label holders.

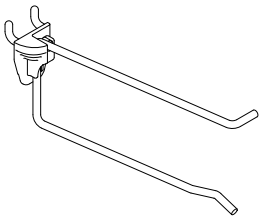

Item No.	Ref. No.	Dimensions	Finish	Pack
7119434071	R35-101	8” L x .224” Dia.	Galv.	50
7156027916	R23	Replacement Back	White	100

2.5” Drop Hook

- Designed to accommodate products that require a larger clearance when displayed on a scanning hook.
- 6” usable display length, 2.5” gap between stem and scan arm.
- Label holders sold separately.

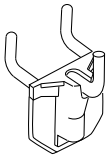

Item No.	Ref. No.	Dimensions	Finish	Pack
7119651658	R33-6X25SCN	6” L x .212” Dia. w/ 2.5” Gap	Galv.	50

Clock Hook

- Hang clocks, plaques, wreaths, etc.
- Excellent for hanging single products.
- Fits 1/4” perforated paneling & slatwall.
- R22 also fits in 1/8” perforated paneling.

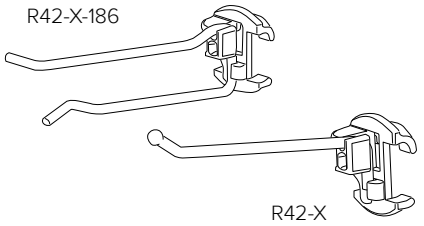

Item No.	Ref. No.	Dimensions	Finish	Pack
Standard-Duty .149 Diameter				
7120652502	R22-103	.5” L x .149” Dia.	Galv.	100
7152515543	R22	Replacement Back	White	100
Heavy-Duty .224 Diameter				
7120514523	R23-103	.5” L x .224” Dia.	Galv.	100
7156027916	R23	Replacement Back	White	100

FASTBACK® 2-PIECE HOOKS

1” Bar & Grid Scan and Stem Hooks

- Our Fastback® Hooks for 1” Bar & Grid are unique in that the same back works for both single stem and scan arm hooks (Label holders sold separately).
- It fits snugly onto 1” bar and grid and its two-piece construction allows for easier set-up and replacement.

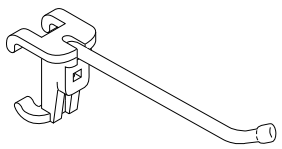

Item No.	Ref. No.	Dimensions	Finish	Pack
7140356344	R42-2	2” L - Single Stem, .186” Dia.	Galv.	100
7148932953	R42-4	4” L - Single Stem, .186” Dia.	Galv.	100
7140990902	R42-6	6” L - Single Stem, .186” Dia.	Galv.	100
7143517915	R42-2-186	2” L - Scan Hook, .186” Dia.	Galv.	100

SONIQ™ ALARM HOOK

STOP LOCK

ONE SHOT™

SONR™ HOOK

ANTI-SWEEP SCAN HOOK

FIRST-LINE™ SECURITY LOCK

FIRST-LINE™ SECURITY SWING

FIRST-LINE™ LOCK BAR

- **SONIQ™ Alarm Hook**

  Open system design that allows customers to remove and replace product without assistance. Soniq 2™ features switchable modes so retailers can choose between an alarming function and a "beep only" mode.

- **Stop Locks**

  Secure on your wire display hook and save money by deterring theft. Stop Lock for loop hook is usable on existing loop hooks up to .250" diameter wire.

- **One Shot™**

  Prevents multiple item sweep with product stop triggered by product removal.

- **SONR™ Hook**

  Open system that guards against product sweep and sends a signal to the SONR™ Echo Box, which can be installed up to 25' away.

- **Anti-Sweep Hooks**

  Deters product sweep by making product removal more deliberate. Available in scanning and single stem versions.

- **Lock Hooks**

  All-in-one locking hook solution for locking pegged products. Available in scanning versions of wire, and butterfly hooks, as well as a single stem version.

- **Swing Lock**

  Works with your existing scanning hooks. Locks around both wires with metal arm to protect products.

- **Hook Lock**

  Economical solution that works with your existing scanning hooks. Locks around both wires with plastic ratchet arm.

- **Lock Bar**

  Full bar solution with locking gate to protect merchandise. Available in 36" and 48" widths.

MEGA BAR SYSTEM

Mega Bar

Get more out of your display space with the new Mega Bar Peg Display System. The Mega Bar is a strong, durable display system that allows for cleaner, more effective product facings while being adaptable to various display applications. The Mega Bar will handle heavy loads as it utilizes the strength of the gondola uprights. Its steel tube construction increases weight bearing capacity as well, which increases product pack-out!

Mega Bar Brackets

Slotted Bracket

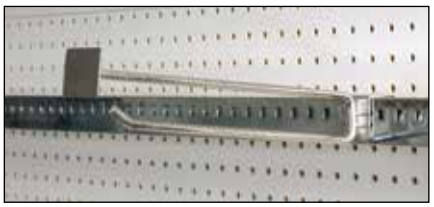

Clamp Bracket

Mega Bar Stem Hooks

.281 diameter wire for strength and stability.

Mega Bar Scanning Hooks

Over-bar attachment. Welded 2" label plate.

Mega Bar Extension Kit

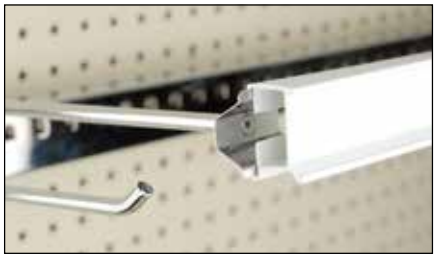

Extends Mega Bar above height of gondola.
Use with Clamp Bracket style.
Sold as left and right pair.

CROSS BAR MERCHANDISER

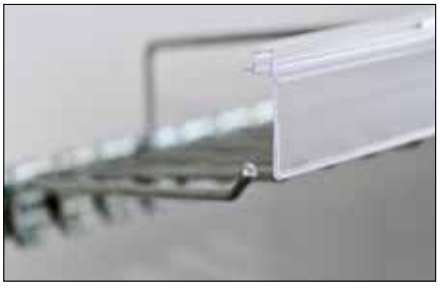

Products can be merchandised as tightly as 1" on center.

Label Holder wire with 6" Curl Back Hook for easy positioning on Cross Bar.

Label Holder sits above merchandise for a clear view of the product and pricing information.

Cross Bar Merchandiser

Display toothbrushes and other pegged product in an orderly fashion. Merchandise standard or multi-pack products.

- Label holder stays above product for a clear view of the product and pricing.
- Fully compatible with standard single or multi pack hanging toothbrush blister packs.
- Cross bars attach to 48" gondola uprights.
- Durable .186" wire hooks do not deform while assembling onto the bar.
- Packed 2 bars/kit.
- Utilizes low cost stock products for a quick turn around on orders.
- Can be used for many products: tooth brushes, jig saw blades, pens/ pencils, office supplies, hobby products, automotive, and more.
- Custom colors available. Minimum quantities apply.
- Custom lengths can be kitted together. Minimum quantities apply.

Kits include the following components:

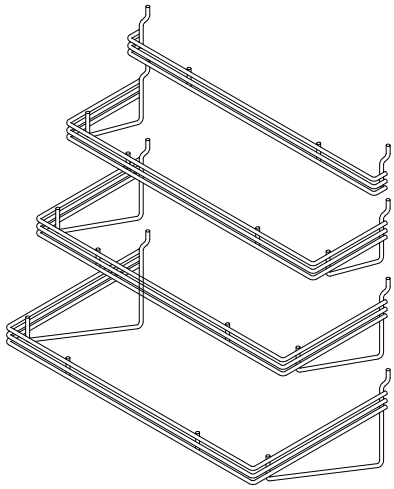

(2) – 48" W x 6" D Cross Bars
(2) – Label Holders
(50) – 6" Curl Back Hooks
(6) – 6" Curl Back Hooks with Label Holder Wire
(56) – Molded Inventory Control Clips

Item No.	Ref. No.	Dimensions	Finish	Pack
7161651671	R-TBD48	48" x 12"	Galv.	1 Kit

Organizer Racks

- Use to create tiered displays.
- Adds valuable merchandising space.
- Provides extra support for heavier items.
- Works with most styles of display hooks.
- Strong, durable design.
- Shown with R33-2-212 hooks (page 44) and RQ-2 label holders (page 94) (not included).
- Also works with Curl Back Crossbar Hooks (page 59).

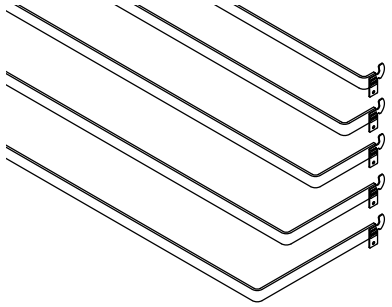

Create waterfall displays to increase merchandising space!

Metal Stampings

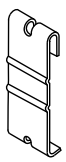

RRB

- Fits on any 1" tubing.

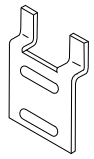

R16-SW-BK2P Slatwall Back

- Works in all standard slatwall and slatgrid.

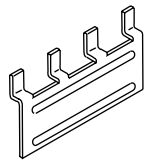

R64-3-BRKT-P Grid Back

- Hangs on 2" and 3" grids.
- Notched to fit on cross wires.

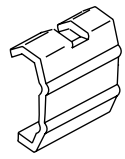

R16-BR2P 2 Prong Flat Back

- Fits .25" peg paneling and slatwall.

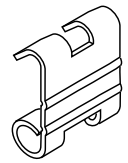

R16-BR4 4 Prong Flat Back

- Fits .25" peg paneling and slatwall.

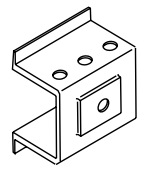

RCB-CTRL 1" Grid Clamp

- Use to connect wire grids and welded racks.

RCB-CURL-D Crossbar Bracket

- Grips onto 1" bars and wire with notched back.

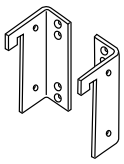

R16-PRCH-CLP Price Channel Clip

- Snaps into 1.25" price channel.

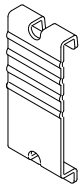

R16-WR-CLIP

- Pressure fits onto .206" diameter wire.

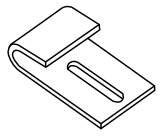

R57-HL/R57-HR Upright Hanger

- For slottted upright.
- Tapped with six .25" - 20 holes

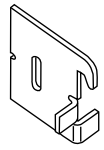

RF4SW Slatwall F4 Back

- Fits in 3" slatwall only.
- Straight entry hooks.

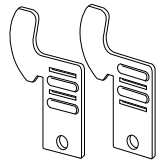

RI-J-CLIPS J-Mount

- Use for hanging wire displays.

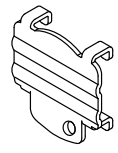

R40-II-GDCLZ Upright Mount

- Universal mount for any slotted upright (zinc plated).
- Patented stabilizing fins.

R16-UCB Crossbar Bracket

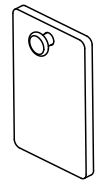

- Ideal for flat steel crossbars.
- Works in most slotted uprights.

PATENTED

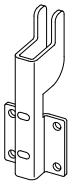

RF4 4-Prong Peg Back

- Fits .25" perforated board only.
- Straight entry hooks.

R40-MTGP-K Fastrack Pallet Adaptor

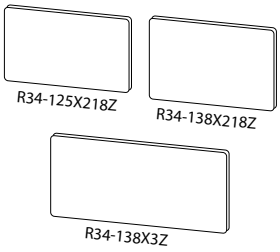

- Weld on to Fastrack® for pallet mounting.

PATENTED

RUMB Metal Gondola Upright Back

- For utilizing Gondola Uprights

All items listed as plain are shipped as raw steel with light oil finish, designed as components for custom displays that will have final coating applied. Zinc plated options are available. Please call for custom quotations.

Plastic Backs

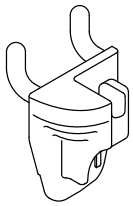

R33-186-100 Scanning Fastback®

- For .186" diameter scanning wire, beige plastic.
- Fits .25" peg paneling and slatwall.

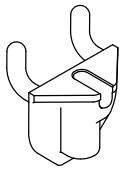

R33-212-100 Scanning Fastback®

- For .212" diameter scanning wire, gray plastic.
- Fits .25" peg paneling and slatwall.

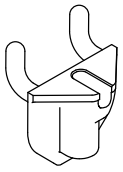

R33-250-100 Scanning Fastback®

- For .250" diameter scanning wire, white plastic.
- Fits .25" peg paneling and slatwall.

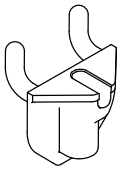

R22 Fastback®

- For .149" diameter wire, white plastic.
- Fits .25" and .125" peg paneling and corrugated.

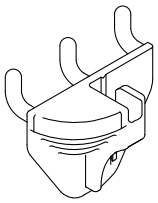

R30 Fastback®

- For .186" diameter wire, beige plastic.
- Fits .25" peg paneling and slatwall.

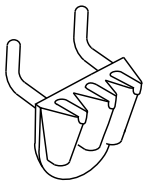

R23 Fastback®

- For .224" diameter wire, white plastic.
- Fits .25" peg paneling and slatwall.

R34 - Three Prong Scanning Fastback®

- For .250" diameter scanning wire, white plastic.
- Fits .25" peg paneling and slatwall.

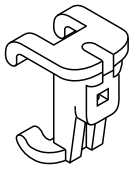

R28 Fastback®

- For .149" diameter wire, white plastic.
- Three pockets designed to hold loop wires with a scan arm.
- Fits .25" peg paneling and slatwall.

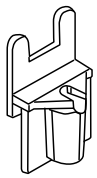

RHF-100 Fastback®

- For .149" diameter wire, white plastic.
- Lower cost for disposable displays and light products.
- Fits .125" peg paneling with .5" hole spacing and corrugated.

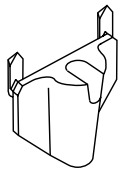

R24 Fastback®

- For .149" diameter wire, white plastic.
- Works on crossbars and 1" spaced wire grids and end-cap merchandisers including Fastrack® grid panels.

R39 Fastback®

- For .149" diameter wire, white plastic.
- Fits .125" corrugated, metal, and plastic paneling.

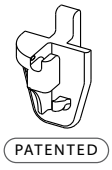

R27-100 Fastback®

- For .224" diameter wire, white plastic.
- Works in diamond hole metal paneling.

Use in Price Channels and Label Holders

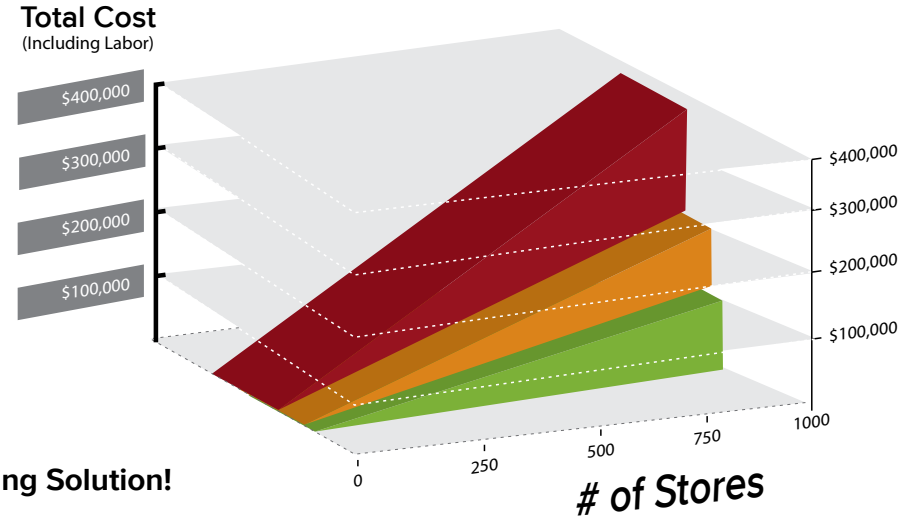

Q-TAG™ Paper Tags — Easy-Release Paper Tags

Save 40% over vinyl and almost 1/3 of the cost of standard perforated tag

Q-Tag™ is a revolutionary new product that can save thousands of dollars in labor costs in retail shelf marking. Q-Tag™ is based on a "dry adhesive" technology, which keeps a pre-cut tag adhered to a liner - even through laser printers - until it is removed from the liner for placement into price channels and label holders. The Q-Tag™ is as easy to use as standard adhesive labels, but it is a paper tag. Look into Q-Tag™ now and begin to realize the savings!

Ideal for use with Data Strip®

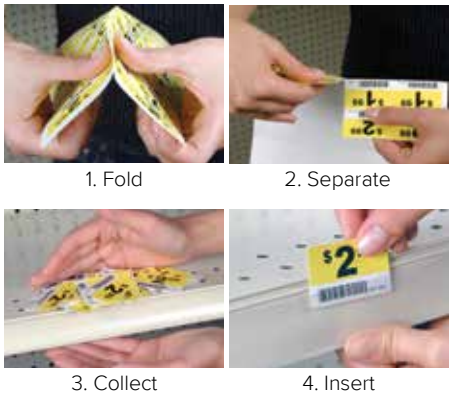

Save thousands of dollars in labor cost in retail marking with Q-Tag™ Paper Tags over Standard and Vinyl Labels.

- Standard Paper Tags
- Vinyl Adhesive Labels
- **Q-Tag™ - The Low Cost Labeling Solution!**

Compare Q-Tag™ to Standard Tags and Vinyl Labels

Standard Perforated Tags

1. Fold 2. Separate

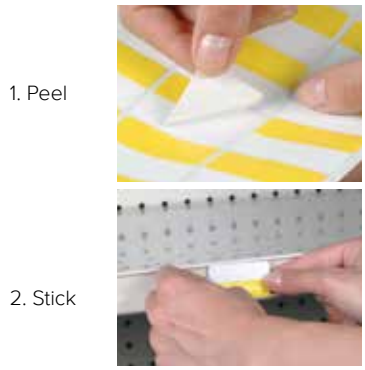

3. Collect 4. Insert

Time to separate and insert:
2 minutes - start to finish

Label Cost = $0.0025/ea
Separation cost = $0.01/ea

Total cost per tag = $0.0125/ea

Vinyl Adhesive Labels

1. Peel

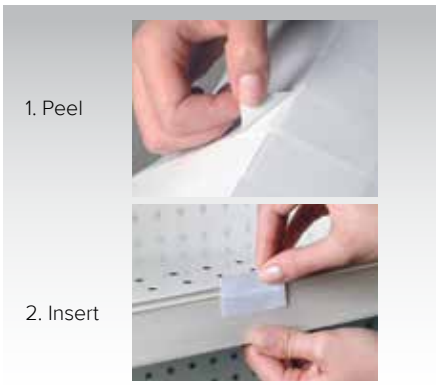

2. Stick

Time to apply:
2 seconds - start to finish

Label Cost = $0.007/ea
Separation cost = $0

Total cost per label = $0.007/ea

Q-Tag™

1. Peel

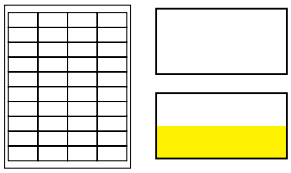

2. Insert

Time to insert:
2 seconds - start to finish

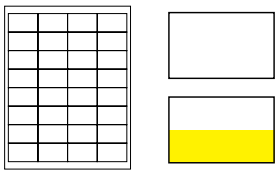

Label Cost = $0.004/ea
Separation cost = $0

Total cost per Q-Tag™ = $0.004/ea

Label•Release®

From price channels to scanning hooks, Label•Release® will change the way you look at labels!

One of the most time intensive and costly areas of running a store is dealing with labels. From removing old labels to placing new labels on shelves and other label holders, labeling can seem like a never-ending process. But, what if there were something that made it easier? Something that allowed you to easily remove and replace labels? Something that allowed you to use inexpensive paper adhesive labels? And what if that product even improved the look of your store fixtures?

Label•Release® is designed with those very issues in mind – to simplify the process of labeling and to save you money.

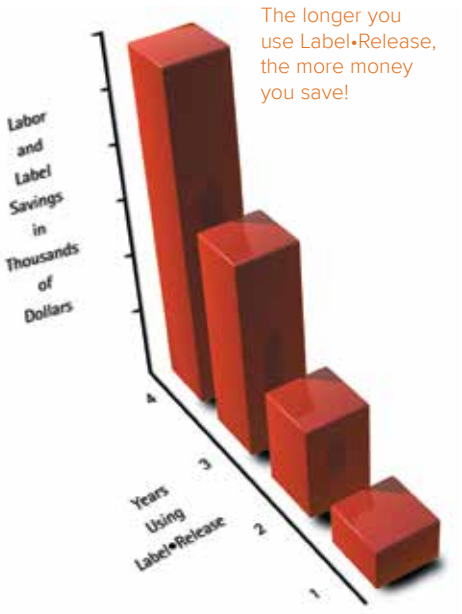

Simply apply Label•Release to fixture.

Apply label.

Remove and replace as necessary!

The longer you use Label•Release, the more money you save!

Features

VERSATILITY

- Near transparent appearance.
- Labels stay put, but easy to remove and replace when needed.
- Store resets become a breeze.
- Cleaner looking shelves - hides those dents & scratches.

AVAILABLE FORMS

- Non-adhesive for “C” shaped price channels.
- Adhesive for flat face price channels.
- Scanning hook sizes available.

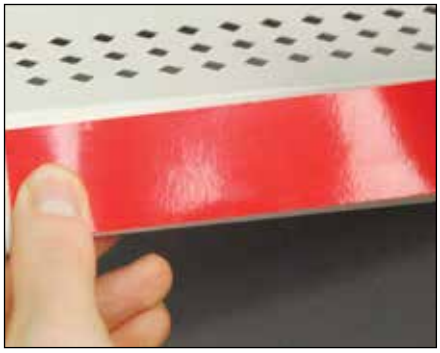

SAVINGS ADVANTAGES

- Save 50% with use of paper labels versus vinyl labels.
- Reduce time for label resets.
- Re-face your shelf in any color.
- Label Release® is versatile and works with almost any label.

COLORS

- Stocked in a variety of colors.
- Custom colors and logos available.

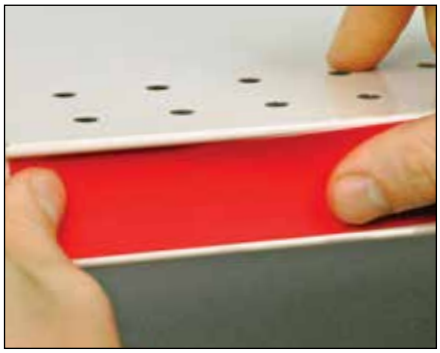

Adhesive Label•Release® VPS for All Shelving

- Base of adhesive vinyl to be used on flat faced shelving. Peel off liner.
- Produced in convenient 200' rolls, perforated every 11.875".
- One roll provides enough material for fifty 4' shelves.
- Durable 3.2 mil vinyl with removable adhesive.

DIGITAL PRICE TAGS

Benefits

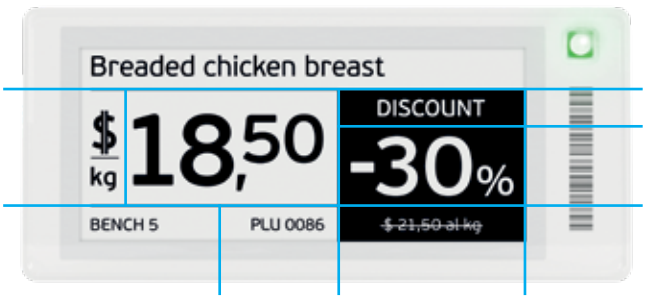

- Shopweb - pricing and store management control from centralized headquarters.
- E-Ink technology for clear price presentation.
- Monitor system to find and avoid issues
- Two-way communication
- Heartbeat - Keeps contact with system every 3 minutes.
- Secure, tamper proof 2.4GH wireless protocol
- Access points for reliable communication.
- Real-time battery status
- 5 year battery life with 4 changes per day.
- Thousands of successful installations worldwide.
- No monthly fees!

Digital Price Tags

Remove the labor and frustration involved with pricing merchandise. Retailers do thousands of price changes every week, and while the cost of the actual label can be low, the labor and inaccuracy is quite costly. Digital price tags resolve this issue by providing a way to tie a tag to a product and have the pricing and information update automatically from a centralized location, such as corporate headquarters.

Digital Price Tags offer incredible clarity and functionality to make store pricing effective and simple. These tags are available in a variety of sizes with various accessories to use anywhere in the retail environment.

Optimized Transmission

By using templates, the screen is divided into fields. Content can be text, numeric, bar code, or bitmap image. The system only sends updates on changed fields. The price, for example, is a numeric field, not an image. All of this combines to provide fast update speeds while maintaining low battery consumption.

[NEXT] 2.0

The next generation for organized and accessible retail display

With the NEXT® 2.0 Merchandising System, retailers save valuable retail space and can stock additional products per tray. NEXT® 2.0 offers the following features:

- The only NSF Certified tray on the market
- Attractive, open-weave construction of plastic divider and pusher paddle reduces overall weight and cost
- Uniform size of pusher paddle and front product stop to maintain consistency across packages and categories
- Pusher paddles extend to the back of tray to hold more merchandise
- Divider ledge secures wide boxed and bagged products
- Durable wire frame expands from 4.6” to 10.5” to accommodate a wide variety of package shapes and sizes
- Two tray mounting styles available: bar mount and shelf rail
- Trays fit on Fresh-Fit® Thin Profile Shelving System mount bar to organize and face salads and other bagged produce

NEXT® 2.0 (Bar Mount)

- Design of tray mount allows trays to span over bars, creating a continuous flow of merchandise
- Standard 4.6” wide tray frame
- 1” bar available in various lengths
- Honeycomb design for airflow and temperature control
- Multiple label holder options or Digital Etags available
- Universal bracket fit all uprights
- Various spring strengths and quantities can be used
- Divider ledge provides support for full width of product
- Adjustable side dividers (custom styles available)*
- Custom front fence heights available as well as different label holder options*

*Consult manufacturer for custom options

PATENTED

new NEXT® 2.0 Bar Tray

NEXT®

Enhance presentation to increase sales

Increase merchandising space and product visibility with the NEXT® System. The NEXT® system compacts the retail space and allows more facings in the given space. Additionally, each item is faced and visible to the customer for easy product selection.

By switching to the NEXT® System, you can eliminate expensive shelving and put more product in its place. Studies have shown that retailers can increase their merchandising space by 30% and more, raising the profitability of the retail space.

The NEXT® System is fully modular and customizable to handle a wide variety of products and retail environments.

- NEXT® Trays are customizable
- Choose between a variety of sides with different functionality
- The width of the divider sides is easily adjusted with a simple pull or push

Paint Rack Pusher System

Base Deck
R-PSHFBD

Uprights
R-PSHFUP

- Provides a quick and easy way to face spray paint cans or tall, narrow packaging to the front of the shelf.
- The patented design avoids unwanted multiple can removals due to cans snagging each other and the spring fed, user friendly pusher reduces the labor cost in product facing.
- The full black display attaches directly to the gondola or base deck for easy installation.
- Base deck available in 16" and 19" depths.
- Upright version available in 16" and 19" depths.
- Includes 1.25" C-Channel for price tags.
- Durable steel construction.

Gravity-feed design uses integrated rollers to self-face and organize product

Roller Track™

Roller Track™ delivers full visibility of products and allows shoppers to make selections quickly and easily. The added benefit to retailers is gravity-feed facing - a low maintenance labor-saving solution to organize product and prevent empty facings.

- Will increase sales up to 20% during peak hours
- Gravity-feed design uses integrated rollers to self-face product
- Products remain visible and easily accessible
- Easy to install, stock, and reset to minimize labor
- Ideal for beverages, dairy, cleaning products, and convenience items
- Can be used in front- and rear-loading coolers
- Durable, long-lasting solution reduces waste and carbon footprint
- Call for more information

Benefits		
Display is neat and full of product	→	Improved shoppability
Products are moved to the shelf edge	→	Easy access to products
Products remain in the right place	→	Price & product always align
Shelves look fully stocked all the time	→	Increased sales
Reduced time spent maintaining a tidy shelf	→	Reduce labor cost
Major reduction in hours spent refilling or front facing products	→	Improved stock rotation

Increase your category sales in a multitude of store environments

Roller Track™ is especially suited to convenience and dairy products, beverages and heavy products as it can be used for a variety of packages with flat bases.

Wide Base Track and Tall Dividers

Power Zone® Kwik-Set™ Self-facing System

The Power Zone® Kwik-Set™ Self-facing System is a labor-saving, component-based merchandising system flexible enough to accommodate the widest range of product shapes and sizes throughout the store. The System provides a single solution for total shelf management. To further increase the convenience and labor savings of self-facing, the Tracks and Dividers can be easily added, removed or adjusted by sliding along Front Rail – all while product remains on the shelf.

- Dividers and Tracks engage and disengage easily for trouble-free installations and quick set changes
- Offering unlimited spacing configurations, Dividers and Tracks can be adjusted by sliding along Front Rail
- Spring-loaded lock tab allows easy adjustment of facing width, even with product in place; tab automatically locks into place, maintaining facing width integrity
- Center push configuration features separate pusher track and divider to provide consistent, center-of-product force for most packaging shapes and styles, including round and irregularly-shaped products, and minimizes need for multiple pushers on large products
- Integrated clear front lens provides unobstructed view of products
- Available with Kwik-Connect™ Front Rail to attach to shelf without the need for separate fasteners
- Compatible with all Power Zone® Sure-Set™ Paddle Extenders and Adapters

May be covered under one or more system patents.

Power Zone® Kwik-Set™ Self-facing System

- Components can ship pre-assembled for box-to-shelf installation to minimize labor, or in bulk by category to minimize freight

Specifications

Power Zone® Sure-Set™ Self-facing System

The Power Zone® Sure-Set™ Self-facing System is designed to meet the growing challenge of merchandising diverse product packaging in categories throughout the store. Versatile and innovative, the system can be custom-configured at store level to meet almost any planogram need.

- System can be custom-configured at store level to match any planogram, providing the myriad benefits of self-facing for products on shelf, in freezers or in displays
- Wide Base style available for wide or heavier product
- Optional Paddle Extenders available to accommodate nearly any package shape or style
- Inventory issues are obvious at a glance; quick and easy re-stocking saves labor costs
- Single track width can be used individually or in pairs to accommodate a variety of package styles and sizes, as well as simplify in-store set-up and product ordering
- Accommodates most retail gondola shelving, freezer shelves, warehouse racking and other flat surfaces
- Unique “ratcheting” feature on wide base center dividers holds position, yet allows easy repositioning without removing product or lifting the divider to reset
- Low profile front rail provides 100% packaging visibility
- Entire system serves as a strong theft deterrent
- Attaches to shelving with fasteners, screws or select a Kwik-Connect™ Front Fence with integrated fasteners

May be covered under one or more system patents.

Power Zone® Sure-Set™ Self-facing System

Specifications

- Fits shelves 10” to 22” deep
- Fits product 1.5” W and wider (multiple tracks per facing can be used for wider product)
- Pusher Paddles are 1 1/8” W (Narrow Base), 2.75” W or 5” W (Wide Base)
- Dividers are 2.75”, 4” or 5.5” H
- Front Fence is 1.25”, 1.75”, 2.5”, or 4.25” H
- Springs are stainless steel, variable force
- Beige, white, black or clear high-impact plastic
- Custom sizes and colors can be made to order

One System

- Merchandise products throughout the store

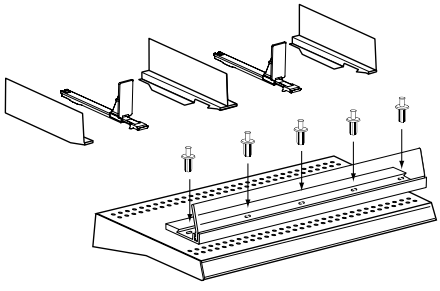

Reduce Theft

- Entire system serves as a theft deterrent

Power Zone® Sure-Set™ Self-facing System Kits

- Use category kits throughout the store
- Each Kit comes with a pre-determined number of facings
- Kits are easy-to-order and eliminate the need for manual configuration
- Universal Fasteners are included for mounting to perforated shelves with .25” holes (8509317101, see page 502)
- Front Fence is 1.75” H x 48” L, clear high-impact plastic
- Additional facings are available to insert into system (sold separately – see page 146-147)

Power Zone® Pre-Set™ Self-facing System

Power Zone® Pre-Set™ Self-facing System takes merchandising, loss prevention and profits to a powerful new level. Power Zone® Pre-Set™ is the only system on the market that generates the sales boost and time- and labor-savings you're looking for, plus ships pre-assembled for fastest box-to-shelf installation. And, in a recent study, Power Zone® Pre-Set™ helped a major retailer reduce inventory shrink by up to 95%* in key product categories.

- Ships pre-assembled and ready to place on the shelf, saving 40% or more in installation costs versus non-preassembled systems
- One-piece design allows fast setting and re-setting of shelves and categories
- Product is automatically faced, ensuring every product is prominent and accessible
- Crystal clear option complements any shelf color for use in categories throughout the store
- Durable high-impact plastic Front Fence resists breakage and offers crystal-clear clarity, as well as deters "shelf sweeping"
- Track/Dividers adjust to accommodate nearly any product shape or size for a universal solution
- Attaches to shelving with fasteners (included), screws, or adhesive (not included)
- Optional Extend-A-Track™ paddle feature allows one system to fit multiple shelf depths

May be covered under one or more system patents.

**Based on a 9-month study conducted by a major drug store chain.*

Power Zone® Pre-Set™ Self-facing System

Specifications

- Front Fence and Track/Divider are high-impact plastic
- Springs are stainless steel, variable force
- Power Zone® Pre-Set™ can be made to order in custom colors and sizes
- Power Zone® Pre-Set™ is available in multiple widths and depths to meet nearly any product or application need
- Fits shelves 10” to 24” D
- Fits products 1.625” and wider (two tracks per facing can be used for wider product)
- Track/Dividers are 2.25” H; available in 1.625”, 2.125”, 3.125”, 3.9375”, 4.125” and 6.125” W
- Front Fencing: Standard – 2.25” H, 36” or 48” L
- Front Fencing: With optional integrated Data Strip® Label Holder – 3” H, 36” or 48” L

Box-to-shelf

- Save time and labor

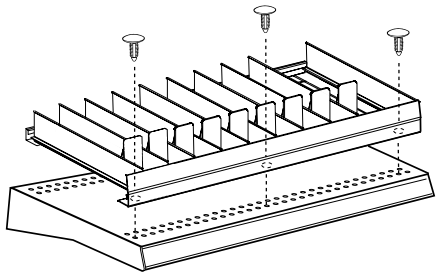

Additional security

- Add P.O.P. Security™ Invisi-Shield® System (see pages 450-451)

Power Zone® Pre-Set™ Self-facing System Kits – Category

- Save labor with box-to-shelf, Pre-Assembled Kits
- Each Kit comes pre-assembled with a pre-determined number of facings
- Kits are easy to order and eliminate the need for manual configuration
- Channel Fasteners are included for mounting to perforated shelves with .25” holes (8532988000, see page 502)
- Front Fence is 2.25” H x 48” L, clear high-impact plastic
- To further maximize vertical merchandising space, Kits are also available with an integrated Low Profile Shelf (page 152)

Lozier Shelving with Power Zone® Pre-Set™ Self-facing System (left)

Power Zone® Low Profile Shelving with Pre-Set™ Self-facing System (right)

Power Zone® Low Profile Shelf System

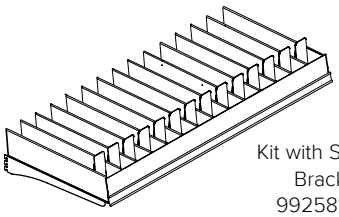

- Add at least one shelf per gondola in densely packed categories such as HBC and OTC, depending on plan-o-gram and gondola height
- Shelf profile is just over .5" high, compared to the typical gondola shelf height of 1.25", gaining nearly .75" of vertical space
- Choice of two upright bracket styles to optimize vertical spacing; Offset Brackets allow .5" adjustment in the gondola slots, compared to the typical 1" adjustment

Specifications

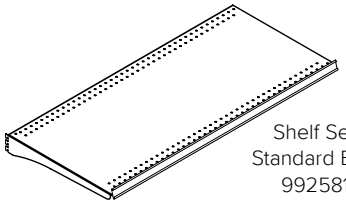

- Tool-free installation on standard Lozier and Madix gondola uprights
- Integrated 1.25" c-channel accommodates pricing or promotional information
- Available with Standard or Offset Brackets
- Beige powder-coated steel

Kits include:

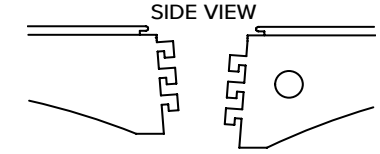

- Low Profile Shelf with two Brackets
- Power Zone® Pre-Set™ Self-facing System with 2.25" H Track/Dividers and Front Fence
- Pre-assembled; simply remove from box and set into gondola uprights

IMPulse™ Trackless Pusher System

Improved product facing is designed to increase impulse sales! The molded front fence provides better support and control of product. The IMPulse™ System faces a wide variety of product, and can extend past the back rail to maximize product packout.

- Front Fence available in 2" H x 48" L. Custom lengths are available.
- Dividers are available in 3" H, and lengths of 11", 13", 15", and 17".
- Stock Pushers available in medium-duty. Light-duty and Heavy duty strengths available. Call for details.
- Dividers provide easy clip-in stabilization of products without sliding.
- System includes: Pusher Units, Front Fence and Reversible Dividers
- Stock color is black

SAVE LABOR COST

Spend less time facing products and more time helping customers.

INCREASE SALES

Maintain a consistently faced shelf to increase impulse sales.

Trackless Pusher Units

- New pusher shape designed to better handle a wide range of products.
- Easy to adjust.
- Utilize multiple pusher units to move wider and larger products.
- Available in Black. Custom colors available.
- Paddle extension plate available. Size: 4” H x 3” W. Call for details.

Item No.	Ref. No.	Style	Finish	Pack
4858153677	RPI2-PL1235	light weight pusher	Black	10

4851079660	RPI2-PH1235	heavy weight pusher	Black	10

Front Fence and Snap Rail

- The front fence is made from a clear PMMA resin offering a strong, rigid construction, and features a series of holes for the attachment to shelves with push pins.
- Available in Black. Custom colors available.
- Works with R16-PSD2-PP Push Pins. Each fence uses 4 per 4’ span.

Item No.	Ref. No.	Dimensions	Finish	Pack

Reversible Dividers

- Designed to work with either end facing forward as to avoid confusion and aid in the assembly.
- End dividers are also available and designed to work on either the right or left end.
- The rear track utilizes the same snap inserts used in the front fence unit, and holds the dividers securely in place.
- Available in Black. Custom colors available.

Kinetic Shelf

The Kinetic Shelf from siffron makes shopping easy by providing a simple product facing that can accommodate nearly any size product and can be mounted at an angle – providing a gravity-fed solution to facing merchandise – or horizontally where a low strength pusher system can be applied to keep merchandise organized. Accessories such as dividers, front fences, and divider/pushers are available to further organize and manage self-faced product. A clear front fence slides into the front channel to retain merchandise while maintaining brand visibility. Shelf dividers insert into the front and back integrated slots anywhere along the length of the shelf so retailers can design the shelf space to suit their needs.

- Drop-in self-facing shelf system
- Easy setup and breakdown
- Plastic shelf accepts Kinetic Shelf Dividers and Pushers on page 157
- Optional dividers can be inserted in 1/16” increments

Benefits

- Reduce Labor
- Self-Facing
- Flexible Shelf Design

Customize your shelf dividers to fit any product.

Kinetic Wire Shelf

Keep shelf areas organized and product accessible using our new Kinetic Wire Shelf from siffron. The Kinetic Wire Shelf features a special, ultra-slick coating, allowing product facing easy with 7° angle standard needed to gravity feed products. Add the all-in-one pusher/divider to face products with the shelf mounted flat.

Weight-tested to handle up to 100 lbs, the Kinetic Wire Shelf is lightweight, installs in seconds, and fits into standard gondola uprights with no mounting tools required. Dividers quickly install along the shelf to create the display area that fits the size of their merchandise.

- Perfect for grocery and convenience application
- Mounts at 0° and 7° (for gravity-feed)
- Installs into standard gondola uprights
- Drop-in shelf merchandising system that requires no tools to install
- Weight tested for 100 lbs
- Wire shelf accepts Kinetic Shelf Dividers and Pushers
- Optional dividers can be inserted in 1/16” increments

FACER

FACER system provides a quick and easy way to merchandise and organize your wine section on standard perforated shelves. Save labor costs by spending less time on re-stocking, counting and facing up. Sell more and make wine selection more profitable.

FACER is a simple approach to optimize stock throughout trading hours. Each lane of bottles is easily pulled to the front of the shelf to keep a tidy presentation.

Use the label pocket to create an attractive and selling product segmentation. Optional endcaps can be added to prevent FACER frames from being pushed over to the next shelf. As an additional benefit, the endcap contains a built-in sign grip for perpendicular signage.

Save Time. Save Labor Cost.

- Less time spent on re-stocking, counting and facing.
- Reduction of out-of-stocks.
- Less risk of over-stocking and broken bottles.
- Better communication to develop impulse buying.
- Products neatly aligned.
- Improved shoppability.
- Adjusts to fit any size bottle.

The FACER system was developed with a view to improve management of wine sections, making it easier to quickly face and maintain.

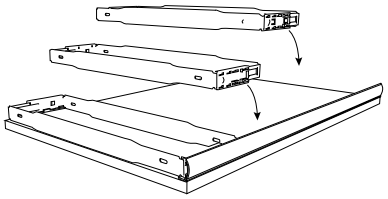

Use with a wide variety of products

FACER Frame

- FACER frame are easily adjusted to the width of the bottles and work on all standard shelving types.
- Stepless width adjustment from 2.643” to 4.328”
- Works no matter which way it is turned.

Visi-Pull™

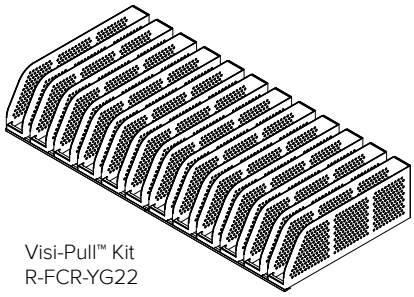

The Visi-Pull™ is designed to reduce labor costs and restocking time in the stackable product sections.

Traditional pusher systems are not advisable for stacked product and organizing by hand is a difficult. This new system is designed with height to cover stacked containers. Instead of manually facing product, containers are pulled forward in a fast and orderly manner.

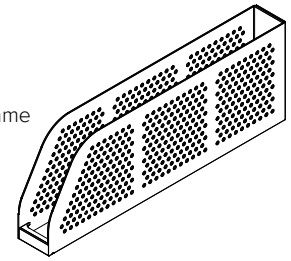

Visi-Pull™ also adapts to most cooler shelves with a front lip and includes 24” width fronts for shelves without a front lip.

- Adjustable from 2.5” to 4.25” width for a variety of container sizes.
- 7.7” H Frames allow for multiple products to be stacked.
- Divided lanes prevent product mixing.
- Adhesive base helps connect front fence to standard retail shelf.
- Use with a variety of stackable products.
- Kit includes:
  - (2) Adhesive Front Fences, white rigid PVC with clear transfer tape
  - (12) Visi-Pull™ Frames, clear ABS

siffron

Length is end-to-end measurement. Length does not refer to shelf size or hole position. Samples available for in-store trial.

Fencing & Dividers

- Durable chrome finish.
- Snaps directly into shelf perforations stopping unwanted product movement.
- Great for plumbing departments, electrical departments, office supply, store forms, automotive departments, and much more.

RD = **Lozier / Madix**

SQ = **Childs / Handy / Streater**

Item and reference numbers shown fit Lozier, Madix and Darling shelves. To order fencing or dividers for Childs, Handy, or Streater shelves, replace "RD" with "SQ".

RD = Lozier, Madix, Darling
SQ = Childs, Handy, Streater

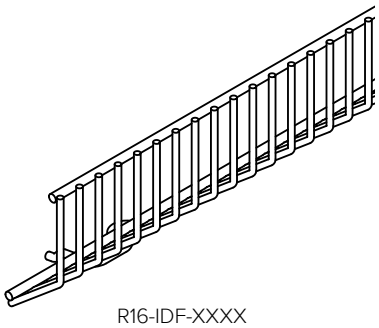

See website for SQ item numbers.

Ratchet Divider

- Adjust and snap Ratchet Dividers into Lozier and Madix shelving to create instant dividers.
- Ratchet Divider available in 10”-16” length, and 16”-22” adjustable length.
- Snap on to Lozier and Madix shelves so you can merchandise your products in no time. No tools needed.
- Reduce the amount of different shelf divider SKUs you need.
- To secure installation, snap Ratchet Divider to front and back of existing shelf.

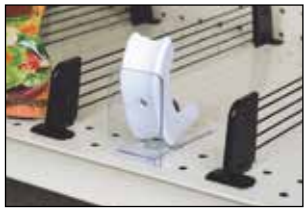

Adjustable to fit most Lozier & Madix Shelves

Item No.	Ref. No.	Dimensions	Finish	Pack
4106563714	RASD-1016-PC	10”-16” Ratchet Divider	Clear	10

Utilize our P.O.P-In Pushers™ to add self-facing capabilities to your displays.

Stretch Divider

Stretch Dividers provide a quick and easy way to merchandise and organize product on standard perforated shelves. Save inventory costs by using one Stretch Divider that is adjustable to fit different shelf depths with ease and works without the need of a front and back rail system.

The Stretch Divider is ideal for merchandising products on Lozier and Madix display shelves ranging from 14” to 20” deep. To customize your display and add product facing use POP-In Pushers. Facing product creates a more appealing presentation and increases impulse sales.

- Stretch fabric allows the divider to easily adjust to fit standard 14” to 20” D perforated shelves
- No tools needed
- Stock material is black ABS

Contoured
Perforated
Front Fence

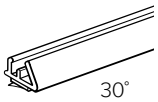

Contoured Front Fence and Divider System

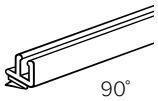

Create a customized shelf merchandiser by pairing any of the Front Fence styles with Shelf Dividers.

Contoured Perforated Front Fence

- Pair with shelf dividers to organize product
- Features slotted holes for mounting with shelf fasteners (pages 499-505)
- Tapered base fits under products on shelf
- Clear high-impact plastic

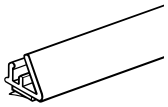

Contoured
Low Profile
Front Fence

Contoured Low Profile Front Fence

- Use with shelf dividers to organize nearly any product
- Low profile allows unobstructed view of product
- Attaches with permanent adhesive
- Available in two styles: 30˚or 90˚
- Clear high-impact plastic

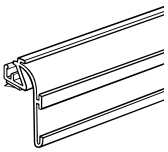

Contoured
.75” Angled
Front Fence

Contoured .75” Angled Front Fence

- Simple, easy-to-use system organizes products
- Permanent adhesive secures rail to shelf top
- Imprinting available for front of fence
- Clear high-impact plastic

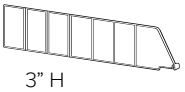

Contoured
Double Channel
Front Fence

Contoured Double Channel Front Fence

- Two 1.25” H channels allow for display of both UPC tags and P.O.P. signage at the same time
- Attaches with permanent adhesive
- White high-impact plastic

Contoured
Shelf Dividers

Contoured Shelf Dividers

- Use with Contoured Front Fences to neatly organize product
- Dividers clip onto Front Fences, and are easily repositioned
- Feature 2” break-off segments to fit shelves 10”, 12”, 14” or 16” deep
- Clear high-impact plastic

Universal Front Fence and Rectangular Divider

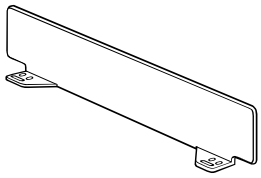

- Use Front Fence and dividers together to create a shelf management system, or individually to organize products
- High quality injection molded Front Fence and divider system for optimal clarity
- Easily attach to any type of perforated metal shelf for versatility
- Channel-free Front Fence will not collect dust or debris; features slotted holes for fastener mounting
- Dividers are reversible with tabs at front and back for fastener mounting
- Tabs allow dividers to be adjusted in half-inch increments on-shelf
- Fasteners sold separately; recommend four per fence, two per divider
- Insert Quick-Grip Fastener into connector hole to establish a fixed depth
- Use Wing Nut & Bolt fastener to secure Front Fence for heavy merchandise
- Crystal-clear styrene or DuraBlend™ Front Fence (can be Made To Order in polycarbonate); crystal-clear polystyrene Dividers
- .200" diameter mounting holes

Slim-Line Divider with Integrated Fasteners

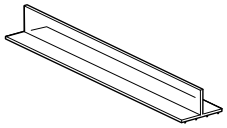

- Integrated fastener tabs engage in front holes of most perforated shelving
- Installs with no tools, fasteners or adhesives
- Fastener tabs at both ends allow divider to be turned 180 degrees for reuse
- T-Style divider can easily be converted to L-Style for maximum flexibility
- Clear design allows for full view of product on shelf
- Clear 30 mil PVC

Item No.	Ref. No.	Dimensions	Shelf Depth	Pack

Keep products organized and maintain price label integrity. Utilize Magnetic Dividers to add quick shelf management capabilities to your retail environment.

Magnetic Divider

Clear Magnetic Dividers from siffron provide a quick and easy way to manage and organize merchandise. The Magnetic Divider is ideal for use on industry standard steel display shelving.

Ordinary adhesive dividers offer only a one-time use and removing them is difficult and messy. Magnetic dividers remove the hassle with no cleanup involved. Just place on the shelf and you're ready to go!

Dividers can be installed throughout the shelf and, unlike adhesive dividers, are reusable. No fasteners or install tools necessary. Magnetic Dividers provide shelf management for a variety of grocery and convenience applications.

- Magnetic Dividers fit most shelf depths of standard metal shelving.
- Available in 1.5'' and 3.0'' heights.
- Stock lengths available from 10'' to 24''.
- Custom heights and lengths are also available.
- Accessories include Magnetic Front Fence and Magnetic Product Stop

Magnetic Divider

- Magnetic Dividers install without adhesive or mounting hardware
- Reusable
- Keep merchandise organized on shelves

siffron

Allura™ LED Lighting

LED (Light Emitting Diode) technology is changing the face of retail. Its low cost, extended life, and flexible applications provide a sophisticated lighting and energy management solution that will help balance design and performance with your budget while committing to sustainability.

24V LED

Sustainable lighting.
Increase sales.
Reduce energy costs.

LED lighting platforms create extraordinary value by providing high-quality illumination and color rendering of products for increased visibility, visual comfort, display aesthetics and minimum energy consumption.

Our LED fixtures give you the peace of mind that comes with knowing your products will get the best representation to build customer confidence and drive sales.

- Low-voltage.
- Display adaptability.
- Deliver bright light for effective illumination.
- Energy and cost savings, up to 80-90%, when compared to traditional lighting.
- 5 year warranty.
- Over 50,000 hour lifespan.

The keys to unlocking the power of LED Technology

Increase Sales. Reduce Labor. Manage Products.

Why siffron for LED Lighting?

Solution provider for over 50 years!

siffron has been providing display and fixture solutions of all types to the retail industry for over 50 years.

Our ability to combine low-cost, high-quality LED lighting with our custom fixture capabilities means we can provide the most effective retail display for you at a highly competitive price.

We have offered a variety of lighting solutions for many years and we are constantly innovating to meet and exceed your expectations.

Call us today about your next project and let us prove to you how we can be a valued partner with our LED lighting and fixture capabilities!

Why 24 volt versus 12 volt LEDs?*

Doubling the voltage results in half the current for a given load. This results in a smaller voltage loss and therefore less dimming further away from the power source using 24VDC instead of 12VDC.

LED Feature Legend

Lumen
Lumen measure how much light you are getting from a bulb. The higher the lumen, the brighter the light.

Low Voltage
LED lighting consumes a low amount of electricity, especially compared to other light sources.

Light Color Tempera-ture
LEDs color temperature can affect how color is rendered and ultimately the impact of a room or environment.

Color Render Index
CRI is a quantitative measure of the ability of a light source to reproduce the colors of various objects faithfully.

Bus Bar
Bus bars provide a power source to input LED lighting into, reducing the number of cables and electrical drops.

Beam Width
The beam angle is the degree of width that light emits from a light source.

Waterproof
Silicone seals protect LED electronic components from harsh environments, improving performance, reliability and life.

Lifetime
LEDs offer up to 50,000 hours of illumination with a fraction of the energy used by incandescent bulbs.

Watts
LEDs draw a low amount of watts, meaning more lights can be used on a single, low voltage power source.

Allura™ Flexible LED Kit

Flexible LED Strips are ideal for cove, under-shelf, sign and display applications. Strips provide high-quality light, and are flexible to bend around curved surfaces.

- The sealed, silicone casing provides waterproofing to increase the applications where the strips can be used.
- The flexible strips are compatible with the Allura™ Bus Bar.
- Includes VHB Adhesive Tape for adhering to flat surfaces, as well as magnetic clips for easy installation under metal shelves.
- Custom lengths, color temps, and other features are available.

Allura™ Ultra Bright LED Rigid Bar

High-powered Ultra Bright LED Rigid Bars are ideal for product and category lighting. The high lumen output along with the rigid aluminum housing make this solution ideal to light a broad section of a retail environment.

- The Ultra Bright LED Rigid Bar is compatible with the Allura™ Bus Bar (see page 186 for details).
- Assembled in a high quality aluminum extrusion.
- Includes VHB Adhesive Tape for adhering to flat surfaces, as well as magnetic clips for easy installation under metal shelves.
- Custom lengths, color temps, and other features are available.

Allura™ Mini LED Rigid Bar

High-quality, rigid LED bars are ideal for under-shelf applications to highlight products and display cases. The low watt requirements means that more strips can be used on a single power source, such as the Allura™ Bus Bar (see page 186).

- Assembled in a high quality aluminum extrusion.
- Includes VHB Adhesive Tape for adhering to flat surfaces, as well as magnetic clips for easy installation under metal shelves.
- Custom lengths, color temps, and other features are available.
- ETL Certified

(1) Waterproof Spider Cable (RALL-LED-WPCBL)
(1) Waterproof Power Supply (RALL-LED-WPPS)
(10) Wire Clips (RALL-WCL-4)

Allura™ Overhead Light Kit

Overhead, LED lighting creates a bright continuous perimeter of light above a product display, softening the retail environment and providing additional lighting to enhance products.

- The housing on the Overhead LED rotates to permit a wide range of illumination coverage, whereby the proper lighting angle can be manipulated to maximize product visibility.
- The Overhead LED also works in conjunction with the Allura™ Bus Bar to quickly integrate LED lighting into existing retail set-ups.
- Available in any custom color and length. Call for more details.
- Customizable to daisy-chain lights together and use spider cables to extend power.

Allura™ Ultra Slim Bus Bar

The Ultra Slim Bus Bar features the slimmest profile design, making installs and cable management even easier. Magnetic connector cords ensure effective cable management and keep displays organized and product focused.

- Only ETL Certified bus bar of this type on the market
- Fewer components – easier installation
- Low profile, easy to install into displays
- Works with Molex and DC product outputs

Item No.	Ref. No.	Dimensions	Finish	Pack
UL43004046	RALL-EB-46W	46" L Ultra Slim Bus Bar	White	1

LED Snap Frames

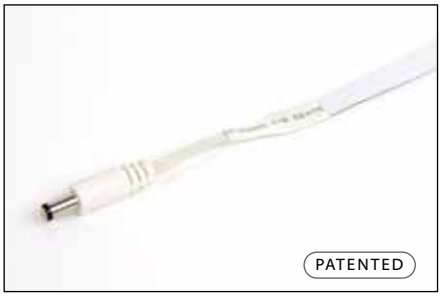

- LED Snap Frames are slim and lightweight, yet extremely durable.
- LED strips are positioned around the rim of the frame and use a special diffusion panel to spread the light evenly behind the screen.
- No tools are required to assemble and graphics are extremely easy to change.
- Produce images with greater dynamic contrast.
- Extremely slim profile.
- Stock size: 24”x26” and 22”x28”.
- Low power consumption.
- Bus Bar compatible
- Custom sizes available. (Maximum size 48”x48”)

2-Way Split Cord

4-Way Split Cord

Splitters

- The 2-Way Split Cord is a convenient accessory for connecting LED lights to one power source, whether through our 12V Inline Dimmer Switch or our 12V Inline On/Off Switch, which both feature 1/4 inch DC plugs.
- Using these 12V splitter cables with a plug-in DC adapter couldn’t be easier, as they plug directly into the adapters.
- Splitters can also be employed in LED installations that require multiple sections of LED strip light.

Modular Sign Holders

With Modular Sign Holder Systems, you can mix and match components to meet your needs. All components are interchangeable to offer hundreds of sign solutions.

All frames may be used either horizontally or vertically, offering greater versatility and multiple uses from a single sign frame. Modular Sign holders also offer savings through reduced shipping and storage costs.

- Complete line of interchangeable components.
- High impact polystyrene with miter-edge finish for easy fit of standard-sized signs.
- Light and durable for use with POP and store shelving applications.
- Stock colors are white, black and red.

Large selection of components to create your ideal sign solution!

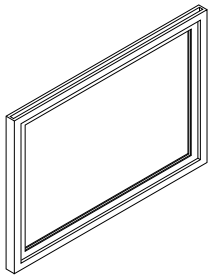

Plate Stem Mount for SuperGrip®

Add the power and flexibility of Fast-Gripz sign holders to modular stem components. Available in 3" x 1.25", and 3" x .5" sizes, its clear construction minimizes visual distraction.

R-SHO_

Modular Sign Frames

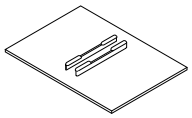

- Compatible with industry standard sign sizes.
- Dimensions listed below denote the size of the sign that the frame is designed to hold.
- High impact polystyrene construction with mitered edge finish.
- Can be used horizontally or vertically.
- Standard colors are white (W), black (K), and red (R).
- See website for additional colors

Flip Sign Holder with Metal Brackets

- Ideal for covering overstocks and cut cases, while providing a large signage area for maximum branding
- Hinging mechanism allows easy access for fast restocking; simply flip sign holder down and set shelf
- Shelf-Top Overhang style covers shelf edge 1.5”
- Attach to perforated shelves using Wing Nut and Bolt (sold separately, below); Recommend 6 sets per sign, 3 per bracket, for most secure fit to gondola shelving
- Attach to warehouse racks and other non-perforated metal surfaces with self-tapping screws (not included)
- Attach to wooden shelving and pallets with wood screws not included)
- Holds graphics 7” H x 48” L; material up to .125” thick
- Black metal brackets / plastic sign channel

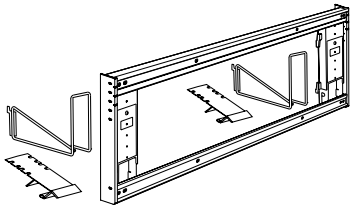

Item No.	Ref. No.	Style	Finish	Pack
9920719101	-	Shelf-Top Overhang	Black	1
8535553601	-	Wing Nut & Bolt	Black	1

Additional lengths and colors can be made to order (minimum quantities apply.)

Universal Gondola Header

- Universal kit includes all components necessary to create Shelf Mount or Gondola Upright Mount headers
- Shelf Mount header pivots to allow easy access to overstock items; fits most perforated shelves
- Gondola Upright Mount displays signs above most standard retail gondolas
- Create multiple in-line headers using additional kits
- Height adjusts in 1” increments to hold signs 9” to 15” H
- Holds rigid sign materials up to .09375” thick
- 48” L; includes all assembly and mounting hardware
- Black HIPS frame, ABS brackets

Item No.	Ref. No.	Dimensions	Finish	Pack
3801968705	-	9-15” H x 48” L	Black	1

Additional lengths and colors can be made to order (minimum quantities apply.)

4’ Overhead Sign Holder

- Fits on to 4 foot gondola with pegboard.
- Adjustable sign height: 8 inches to 16 inches.
- Holds rigid signs up to 3 mil thick.
- Attaches to standard pegboard perforations.
- Black finish.

Customizable features

- Color
- Depth
- Sign height adjustment
- Sign angle
- Pegboard bracket

Ships flat

- Reduced shipping cost.
- Reduced storage space.

Easy to adjust height to hold sign boards in place.

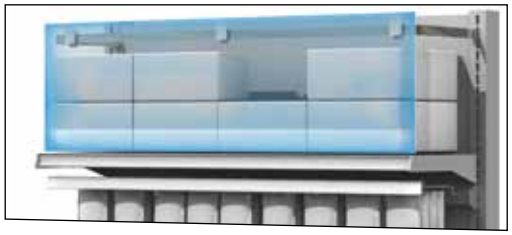

Item No.	Ref. No.	Dimensions	Finish	Pack
2157448778	R-OSH48	4’ x 8-16” H	Black	2

Header Flip Clip™ for 1” Cross Bar

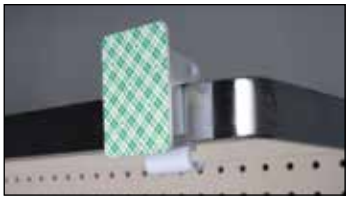

- Convert your existing gondola uprights into an attractive sign and valance display using the Header Flip Clips™ on crossbars.
- Two-sided adhesive pad is hinged on the clip and provides customized placement, allowing different sizes and shapes of signs to be displayed.
- Easy installation and use of Header Flip Clips on crossbars; you can configure the top of your gondola upright into an instant sign to promote and brand your products.

Utilize the crossbar header flip clip to conceal overstock items on top shelf.

Heavy Duty Header Flip Clip

- Larger mount plate for adhering heavier graphic panels.
- Includes holes for screwing clip to signs. (Additional hardware not included)

RAZZ® System

The original one-size-fits-all sign holder system capable of holding materials up to .25" thick. Accommodates die-cut or traditional square-cut signs of many shapes and sizes. Easy to use and easy to see. Multiple base styles allow you to display signs on almost any flat surface: gondola tops, fixtures, counter tops. In fact, just about anywhere you can think of. Jazz up your signs with the RAZZ® System!

An easy-to-use sign system

1. Choose any Base style
2. Select Channel design depending on the thickness of the sign material you're using
3. Insert the Channel into the Base and slide your sign into the channel

Swivo•Clips™

With siffron's family of Swivo•Clips™, your options are limited only by your imagination. Clips, suction cups, magnets, and flat, stable platforms let you display signs just about anywhere. And the freedom of movement allowed by Swivo•Clips™ universal knuckles means you can display signage from any angle and point-of-view. High-quality clear construction keeps attention on signage, and options are available to meet your needs – clear or white knuckles to work with your décor, metal springs for maximum durability or rust-resistant plastic springs for use in wet environments. And all-black sign holders are ideal for fresh areas. Swivo•Clips™ are your creative solution for creating eye-catching signage everywhere!

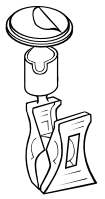

Swivo•Clip™ with Adhesive Adapter 0907

Sign EEZ™

No-Ladder System

The original, safe sign hanging solution!

Retailers have trusted the Sign-EEZ™ System for over 30 years! Sign-EEZ™ provides a quick and easy way to change out seasonal and promotional ceiling signs without a ladder.

The Case Against Ladders

Protect your employees and your bottom line by providing a safe solution to hanging signs!

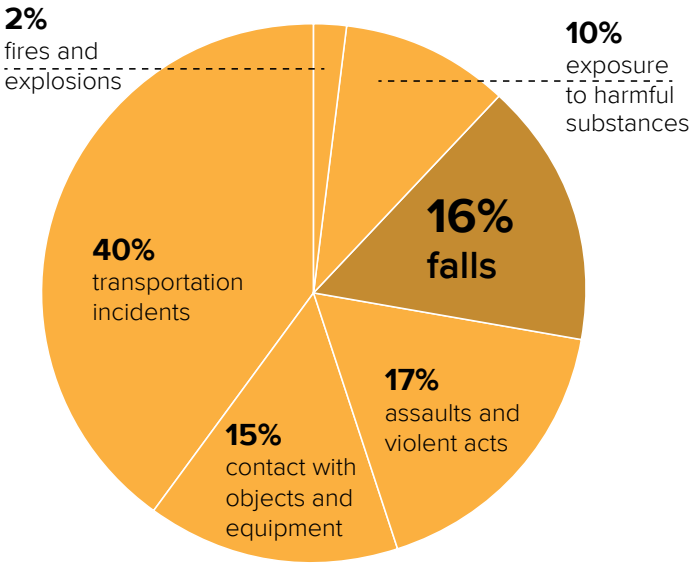

- Do you want your employees on ladders?
- Are your people in the stores trained to use ladders?
- Are you willing to risk putting your employees in danger while on a ladder?
- Are your insurance polices large enough to handle the claims from ladder accidents?

Injury is costly! Fall reduction is smart.

- Over 20,000 injuries occur every year with the use of ladders.
- Over 11,000 of these injuries resulted in work loss from 1 to 364 days.
- 66% of all injured had not been trained on how to use the ladder.
- 53% of the ladders were broken during the yearly injuries.

Manner in which fatal work injuries occurred – 2016*

How it works

Sign-EEZ™ is the easiest and safest system on the market for hanging promotional signs and banners!

Slide Lexan Hooks into magnetic holder and hook to banner rail.

Pull cord on Gripper to grab magnet holder and raise pole and sign to ceiling or window.

Attach magnetic holder to ceiling grid and use cord to release once it is in place.

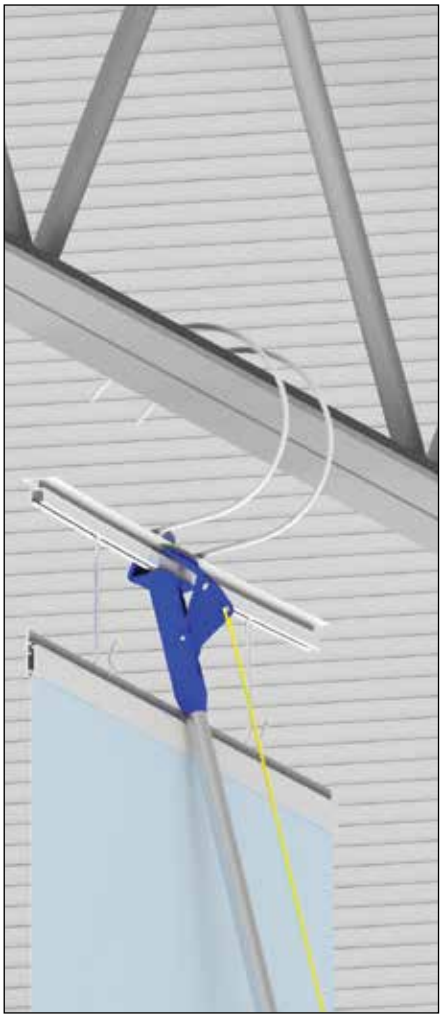

Use Sign-EEZ™ Everywhere

There is a Sign-EEZ™ solution for almost every sign hanging application!

Sign-EEZ™
in Windows

Sign-EEZ™
in Open Ceilings

Sign-EEZ™
on Mall Grids

Need a customized solution? Not a problem!

We can design and manufacture to your particular need.
Call us today to get started on a custom quote.

Aluminum Telescopic Pole & Gripper

- Telescopic pole is sturdy aluminum with plastic gripper and braided pull cord
- Use to hang Sign-EEZ™ Magnetic Hangers
- All Sign-EEZ™ holders can be installed using the telescopic pole and gripper
- Available in 8', 12', 18', and 24' lengths

Item No.	Ref. No.	Dimensions	Finish	Pack
6120178147	R-ATP08AL	8' extension/13' ceiling	Blue/Silver	1
6124948630	R-ATP12AL	12' extension/17' ceiling	Blue/Silver	1
6123401190	R-ATP18AL	18' extension/23' ceiling	Blue/Silver	1
6128141406	R-ATP24AL	24' extension/29' ceiling	Blue/Silver	1

Magnetic Holders

- Attach to any ceiling grids or other magnetic surfaces for hanging banners
- Available in 12", 26" and 36" lengths to accommodate most banner sizes
- Use with clear Lexan, block-end hooks

Item No.	Ref. No.	Dimensions	Finish	Pack
6126649854	R-MH12	12" L	White	10
6120329070	R-MH26	26" L	White	10
6121942873	R-MH36	36" L	White	10

Turn Any Whichway

- Hang sign holder with graphic from ceiling grid and rotate any direction for optimal viewing
- Install easily using Sign-EEZ™ telescopic pole
- Available in standard 26" and 36" lengths

Item No.	Ref. No.	Dimensions	Finish	Pack
6128037723	R-MHT26	26" L	White	10
6123771574	R-MHT36	36"L	White	10

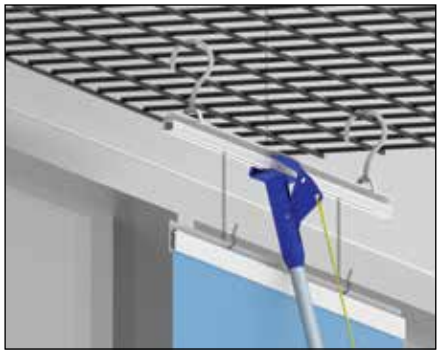

Open Ceiling Holders

- Non-magnetic holder has large hooks for hanging over open ceiling beams
- Mounts over steel truss, beams, girders, utility risers and piping
- Swivel features allows sign to be displayed at any angle
- Works with Clear Lexan Hooks

Item No.	Ref. No.	Dimensions	Finish	Pack
6120976040	R-OCSH12	7.5" H x 12" L	White	1
6126430444	R-OCSH26	7.5" H x 26" L	White	1
6120227680	R-OCSH36	7.5" H x 36" L	White	1

Mall Grid Holders

- Non-magnetic holder designed to hang on wire grid system often found in malls
- Hooks can slide to adjust for best fit
- Locks to banner rail
- Hooks can be adjusted horizontally on banner rail
- Works with Clear Lexan Hooks

Works with Clear Lexan Hooks

Masterpiece™ Custom Printed Retailers

siffron's Masterpiece Strip Retailers are a true piece of art. Offset printed at 133 LPI, these retailers add a visual punch to your promotions and allow your sales to really blossom! Creating your own, custom retailer has never been easier or more affordable!

Check out these features:

New Design Materials (samples are available)

- Frosted PP .015" thick
- Frosted PP .020" thick
- Clear PP .015" thick
- Clear PP .020" thick

LOWER PRICE than screen printing with twice the resolution!

Over 2X the Resolution

Masterpiece Retailers are printed at over 2X the resolution of standard retailers. Pictures and text are sharper and the printing dot is almost invisible.

No Custom Die Charges

That is correct, no custom die charges! This is a major cost savings that removes the barrier to creating the exact piece you need.

No Plate or Screen Charges

This cost savings is enormous! Standard printing for strip retailers have added costs up to $750.

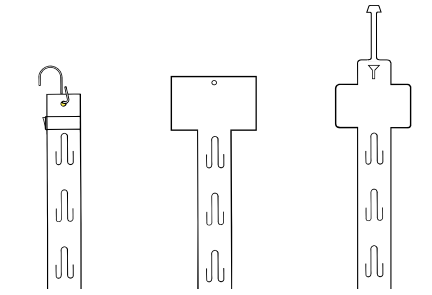

Production Samples

Yes, production samples can be ordered for each custom strip! In fact, it costs $400, but 50% is refunded with a production quantity order! Important Note: The $400 fee is per design. If there are 3 different designs, the fee will be $1,200. However, $200 is refunded with the production order of each design.

Heavy-Duty Quick Strip SR-12

- Thicker, more durable 12-station merchandising strip
- Available with and without header and adhesive
- Can be mounted using included Open S-Hook, Adhesive, or Hanging Loop attachment (see below)

Extenda-Bar™

- Studies prove that items that stand out will catch the attention of customers. By extending your product beyond a standard display, you increase the sales potential of your merchandise.
- This strong, durable display arm is ideal for creating eye-catching end-cap displays and aisle invaders.
- Designed to work with standard gondola uprights, the Extenda-Bar™ allows you to get your heavier displays and products out in front of your customers and increase sales.
- Simply install the Extenda-Bar™ into the gondola, extend it to the length you need (up to 24 inches long), and hang Fastracks®, wand and strip retailers, or signage from them.
- Custom powder coat colors are available.
- Kit includes: 2 bolt fasteners, clips, and Extenda-Bar™ Arm.

REB-24

REB-BRKT-_

Revolutionary new
easy-clean design

4eBin™

A bulk offering is an effective use of store space and creates differentiation. Introducing bulk bins as an easy way of enlarging or adapting your product offering to meet the needs of your local market demands.

Create destinations within your store where shoppers can engage fully with pick & mix of nuts, candies or cereals. Not only do bulk bins encourage greater interaction, they also give consumers more freedom to purchase the exact combination and quantity of the product they want.

Ecological A more “eco-friendly” way of shopping. Fewer resources are used in both transport and packaging.

Economical Lets shoppers buy their desired quantity and favorite mix.

Ergonomic A delight to handle for shoppers and store personnel alike.

Easy-Clean Revolutionary design allows for cleaning the bin without removing them from the shelf.

NSF BPA/EA FREE

The GB4e100-12, 5L product is NSF Certified under HL Display Gilwice Sp. Z.o.o.

Why bulk bins are so effective:

- Product visibility stimulates impulse purchases
- First in / first out product guaranteed
- Ergonomic pull handle provides a consumer friendly interaction
- Easy to install using a cross-bar system or your existing shelving
- Easy cleaning thanks to innovative design

Easy to install and maintain!

Up to **30%**

Time Saving

(Compared to bins in the market)

4eBin™ Features and Benefits

Features	Benefits
Bin fully assembled (1)	Easier mounting and dismounting
Ergonomic front cover	Easier to remove for cleaning
False front*	Bins always look full and displays the content
Dust proof lid	Designed to avoid dust / dirt traps

Features	Benefits
Smooth design of the nozzle (2)	More compact design
Ergonomic pull handle (3)	Provides a consumer friendly dispensing action
Easy refilling (4)	Removable lid with open / close function and refilling position
Stock level (5)	Remaining stock can be read from side of bin

*Optional feature to have a full face display even at low stock levels

4eBin™ Specifications

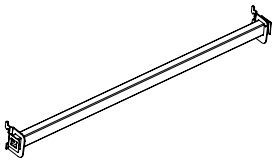

- Available in 3.3 and 5.3 gallons
- Hygienic closed system - consumers can see, but not touch the product unless buying
- All models available with or without false front depending on customer needs
- Standard flow control and ergonomic handle for optimal shopping experience and shrink reduction (first in / first out principle)
- A 5 gallon bin can sustain 44lbs of merchandise
- Transparent body; top lid, handle and sleeves are black as standard
- Additional color options available upon request
- US and European food contact certification (all bins are BPA/EA-free)
- Label printing area 5.5” W x 2.28” H (label holder for 6” wide bins)

Scoop Bins

Improve customer interaction and differentiate from competitors by adding bulk Scoop Bins into your retail environment. Bulk Scoop Bins provide customers the opportunity to pick and mix various products at their discretion.

Using product scoops attached to each bin, customers can fill up as much or as little product as they require. This reduces packaging waste and ensures the displayed product is consumed without waste.

Scoop Bins grab customer attention, are easy to use, and improve overall gross margins versus similar pre-packaged products.

Why Scoop Bins are so effective:

- Allow customers to pick and choose merchandise
- Portion control - less waste
- Easy to use
- First in / first out - guarantees freshness
- BPA/EA-free

BPA/EA FREE

Scoop Bin Specifications

BPA/EA FREE

The angled floor of our Scoop Bins promotes automatic stock rotation to ensure product freshness and quality. Re-merchandising is done through the top which can be fully removed or just opened.

If mounted on crossbar, the Scoop Bin can be pulled out for easy refill without having to remove the bin from the fixture. The Scoop Bins are sealed and have hinged, dust-proof covers to protect merchandise from external contact.

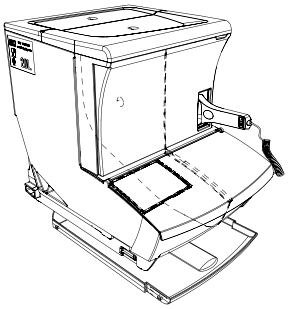

new

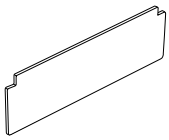

- Scoop Bin can mount onto crossbar with brackets or onto shelf with cylindrical bumper buttons
- Available with or without divider
- Includes catch tray for easy removal of crumbs and sugar
- Use optional shutter to slow the flow and avoid accidental overfilling
- For long or otherwise cumbersome merchandise, we recommend replacing the scoop with Tongs (sold separately)
- Our Scoop Bins can be equipped with a perpendicular holder to support shelf talker or aisle sign to communicate to customers
- Transparent body; scoop and top lid black as standard
- Additional colors available on request for improved segmentation

new

Clear Bowl Display

Clear Bowl Displays can promote a multitude of different products. Most buying decisions are made at a point of sale. When clearly displayed, product has a greater chance of being selected. The attractive, transparent design showcases impulse or cross merchandising products rather than obscures them. It also easily alerts retailers when display bowls need to be restocked.

Clear Bowl Displays are now available with dividers to organize the bowls for multi-purpose use. Dividers come in half and quarter inserts.

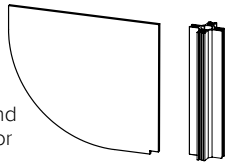

- Minimal mounting hardware makes it easy to setup
- Clear display helps keep product visible
- Simple design
- Ideal for bulk items
- Installs into pegboard via mounting arm or display stanchions
- Each divider kit includes four quarter dividers and one divider connector
  - Connect two quarter dividers to divide bowl into two sections
  - Connect four quarter dividers to divider bowl into four sections
  - Kits sold in packs of ten only
- Each Flag Mount for Gondola Upright Kit includes one mount and one sign frame with stem

new

Impulse QueueLane™

The new Impulse QueueLane™ from siffron combines retail displays with queuing management in a sleek, effective system for retailers to revitalize their front end. Impulse QueueLane™ transforms customer lines into retail opportunities by offering more display space to showcase point-of-purchase impulse items or special product promotions. Retailers can make their checkout counters work for their bottom line by increasing sales and controlling store traffic.

- Increase sales of point-of-purchase items
- Entice customers waiting in line
- Control store traffic
- Highly configurable to suit any retail environment
- Easy to assemble; no tools required
- Compatible with wire grid and slatwall hooks (see page 411)

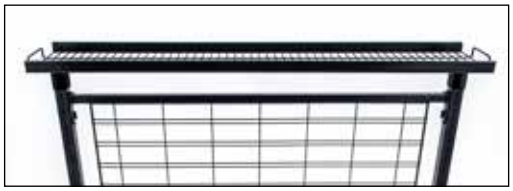

The base kit consists of two stanchions with pedestal bases and a single merchandise grid.

Modular Fastrack® Display

The Mobile Rack can be moved through the store for seasonal displays. Its knock down capabilities allow the unit to save space when storing. The unit can be changed into five different configurations to provide a variety of refreshing display styles. Display products on up to four sides.

Benefits of the Modular Fastrack® Display

Compact – Ships and stores as one compact unit.

Expandable – Modular design allows unit to have multiple configurations.

Graphic Ready – Easily add promotional messages for added impact.

Mobile – Caster wheels to move your display with ease.

Adaptable – Ideal for roll-outs to multiple store formats.

Max Height – Display stands at max height of about 56.5" H

Stable Base – Base is 24" x 20.5"

Color – Silver. Call for custom colors.

Shipping – Ships assembled in one of the display variations.

Unit consists of wire grid fast racks, wire grid walls, metal frame, metal base with casters, and magnetic fast grip sign holders.

Universal Upright System

Hang shelving and other retail merchandising displays with ease using the Universal Upright System. The universal upright can be installed on any gondola or mounted to a wall (hardware not included for wall mount).

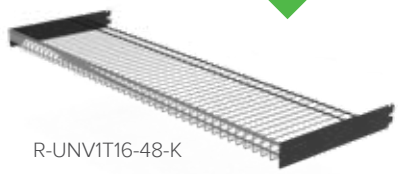

The wire-frame hanging shelves set up quickly and are ideal for lightweight product displays such as chips and other snacks. Shelves are available in single or two-tiered displays. Wire shelf dividers are also available and can be installed all along the shelf to better manage and organize the merchandise.

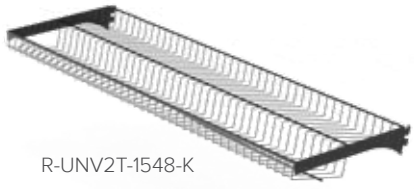

Universal Uprights

- Install retail displays anywhere in your store
- Easy to set up
- Lightweight and sturdy

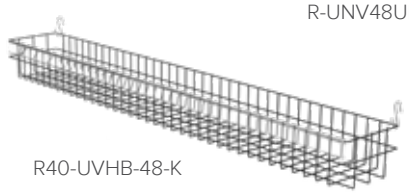

Universal Upright Display Shelves

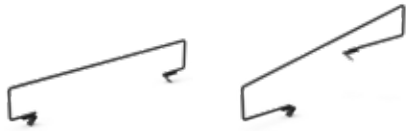

- Single or double tiered
- Easy install – no mounting hardware required
- Shelf dividers also available

RSC-0007 Clips onto Basket

Wicker Basket Displays – Stands

Versatile stand configurations are available to meet a wide variety of store needs. Display stands are designed for wicker baskets to drop right into place. No additional components or fasteners necessary. Wicker Basket Displays can be disassembled quickly and knock down for easy storage and shipping. Units are packed 1 per box and are dishwasher safe for easy cleaning.

- Multi-tiered (2 or 3 levels)
- Sturdy wire-formed structure
- Brown synthetic wicker baskets
- Great for impulse buy displays
- Baskets are food grade quality and dishwasher safe
- Square baskets are 13” L x 13” W x 4” D
- Round baskets are 15” dia x 4” D
- A variety of Swivo•Clip™ Sign Holders are available (call for details)
- Custom Wicker Basket Display are available (call for details)

Wicker Basket Displays – Liners

Clear plastic liners for wicker baskets are also available for fast clean-up. Some types of merchandise (fresh produce) can leave behind residue or other particulates. Plastic liners fit snugly within the wicker baskets and do not detract from store branding or basket display. To clean, simply remove merchandise and plastic liner, use siffron’s Power Clean solution on a clean paper towel for safe, effective cleaning.

- Protects basket display integrity
- Easily removable
- No extra fasteners required
- Hygienic and food-grade quality
- Use Round Liner with 2-Tier and 3-Tier Round Baskets
- Use Large Rectangle Liner with 1-Tier Large Rectangle Basket
- Use Rectangle Liner with 1-Tier Rectangle and 2-Tier Rectangle Baskets
- Use Square Liner with 3-Tier Square Baskets

SONR™

- Multi-tier security platform
- SONR™ technology offers scalable security solutions to meet your retail needs
- Viable solution for displaying valuable items without losing them to shrink
- Hook is battery powered – requiring no cords or cables
- Keeps product visible, accessible, and shoppable

Watch the product video at:
https://intelligentlossprevention.com/products/sonr/

Tier 1

The first level of security starts at facer level. Merchandise removed from a hook or facing triggers the initial response.

Once triggered, a warning beep is emitted to draw attention to the affected retail area and to deter potential shoplifters.

Tier 2

The second tier of security offered by SONR™ starts by installing a SONR™ Echo Box at or near a store associate workstation to mimic all warning beeps and alarms from SONR™ products.

The SONR™ system can be set to alarm if the hook is lifted for too long or cycled too often in a preset timespan. This feature notifies store associates, who may not be in the retail area of activity, and further deters shoplifters.

Tier 3

The third tier, and most sophisticated level of security for SONR™ provides an auxiliary output to link into existing security and communication systems to suit store needs.

The SONR™ Echo Box with optional auxiliary port integrates with existing security systems such as an overhead intercom or Public Video Monitor (PVM).

SONR™ Hook

- Display hook designed to guard against product sweep
- Notifies store associates when customers have chosen merchandise by emitting a warning beep or alarm to detract shoplifters
- Use with SONR™ Echo Box for a second tier of security
- No deactivation device is required
- Holds 1.25” H x 2” W tags
- Locking Backs available (see page 87)

LM Tag™ with SONR™

The LM Tag™ with SONR™ uses the combination of a light sensor and motion detector to notify when the product is both in motion and concealed. It is the only device on the market that alarms at the point of theft, alerting you before product walks out the door. Use with SONR™ Echo Box for added security.

- External secondary security communication with Echo Box
- Ideal for multiple product types, lines and categories
- Doesn’t damage or distract from brand packaging
- Ideal for small to mid-size products
- Customers access product without staff assistance
- Maximize valuable retail space
- Dimensions: 1.5” W x 1.5” H x .58” D

new

SONR™

Compatible with SONR™ Echo Box

SONR™ Pusher

The SONR™ Pusher is a flexible and open security system, integrated into new or existing product pushers, that notifies store associates of activity at the shelf and store level. Retailers can scale the SONR™ Pusher to adhere to their store needs from a singular facing to a complete shelf. The SONR™ Pusher is battery powered, requiring no hard wiring for setup and can be retrofitted into existing Power Zone® Self-facing Systems as well as new installs.

The SONR™ Pusher functions similarly to standard pusher systems, except it features the added functionality of notifying retailers of shopper activity within the store. Shoppers can freely select their merchandise without associate assistance (unlike closed or locked security cases). For each item removed, the SONR™ Pusher chirps to keep retailers alert to activity. If too many products are removed within too short of a time span, the system alarms.

Benefits

- Battery lifetime: approximately 2 years
- Alarm volume: > 95db
- Replaceable CR2450 battery
- Fits into new and existing Power Zone® Pre-Set™ (PS), Sure-Set™ (SS), and Kwik-Set™ (KS) Self-facing Systems
- Open security system keeps product accessible for customers
- Compatible with the SONR™ Echo Box
- Alerts occur both at facing where product is removed AND at Echo Box
- Single chirp if one item is removed, multiple chirp if too many products are removed in a short time span

SONR™

Compatible with SONR™ Echo Box

SONR™ Crossbar Shield

The SONR™ Crossbar Shield is a new addition to the SONR™ product family. Designed to be a cost-effective solution to loss prevention in grocery, pharmacy or convenience stores, the SONR™ Crossbar Shield prevents sweep and theft for an entire row of facings on a shelf. The SONR™ Crossbar Shield's low-profile design preserves space, ensuring retailers do not lose any additional space to sell merchandise.

In its default position, a product shield guards merchandise from sweep. When the shield is lifted, it emits a warning beep notifying store associates of activity in the area while also sending push notifications to the SONR™ Echo Box. If the shield is lifted for too long, the system alarms.

Benefits

- Protects an entire row of product facings
- Anti-sweep hook design
- Battery powered
- Easy to install
- Low profile to preserve retail space
- Multi-platform security

Audible deterrent upon product removal

Deactivate continuous alarming with Strobe Key Deactivator

SONIQ2™ ALARM HOOK

The SONIQ2™ Alarm Hook has an open system design that protects product and allows customers to remove and replace product without assistance.

Features switchable modes so retailers can choose between an alarming function and a "beep only" mode.

The new deactivation method utilizes a light sensor eye located behind the label holder. Use the innovative strobe key to deactivate.

- A simple beep upon product removal denotes activity and deters theft
- An extended alarm sounds when the label holder is held up for 10 seconds or multiple products are removed
- Adding curvature to the product hook creates barriers to sweep and makes product removal more deliberate
- Switch alarm between alarming and beeping mode
- 5 minute deactivation/reset time allows store personnel to stock hooks with no alarms occurring
- Used with optional security straight-entry back, or traditional straight-entry back

TURTLE 2.0

PROTECT YOUR MERCHANDISE

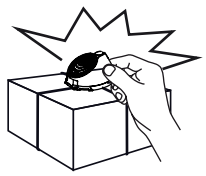

All-In-One EAS Security Sensor System

Protect packaged and display merchandise in your stores using the new Turtle 2.0 from siffron. Turtle 2.0 combines the securing of boxed retail products, similar to the original Turtle, along with EAS gate functionality. Turtle 2.0 provides improved sensitivity - by limiting false alarms from loose strapping - and streamlined installation, while ensuring greater protection from potential offenders.

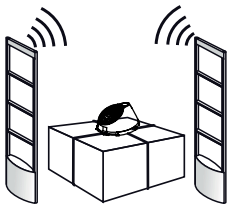

The Turtle 2.0 features a sleek new design that fits more securely to packaged items and protective strapping - making it virtually impossible to remove without the proper detacher.

- Battery lifetime: Approximately 2 years
- Replaceable CR2450 battery
- Alarm volume: >95db
- Full alarm: 5 min. / Pre-alarm: 3 short beeps
- AM (58kHz) / RF (8.2MHz)
- 2 & 3 alarm options available
- 1.75” H x 2.1” W x 2.63” L

TURTLE®
PROTECT YOUR MERCHANDISE

All-In-One EAS Security Sensor System

Turtle is an all-in-one security sensor with multiple applications to protect high-theft packaged goods and demo devices. Use the Turtle independently or with accessories. Adhere to demo products or packaged goods. Secure demo products via multiple sensor heads including: Loop Lanyard Sensor, Mouse Sensor, USB Sensor and Connection Cable.

- Prevent unauthorized opening of packaged goods
- Protect demo products
- Use with various sizes and types of products
- Stack products without any restrictions
- No adhesive residue when removed from packaging or promotional sample
- No tangling cables or damaging wires
- Adapt and expand on site with optional accessories

Watch the product video at:

Product Display

Store Merchandise

Loop Tag Alarm

siffron's new Loop Tag Alarm is an all-in-one EAS gate sensor solution. It is easy to set up and is equipped with a tether to strap to the merchandise. The Loop Tag Alarm securely safeguards merchandise from potential offenders while keeping it accessible for honest customers. Attempting to remove the Loop Tag Alarm or take the product out of the store will cause the device to alarm. Additional security for displayed or multi-component items is available by using secondary security cables.

Product Displays - Items set up for store promotion are vulnerable to potential offenders. Loop Tag Alarms eliminate possible theft by securely attaching to the displayed merchandise while keeping it accessible for legitimate shoppers.

Store Merchandise - Protect high dollar and high theft store merchandise of any size. Handheld home appliances, electronic devices, even bicycles can be easily tagged and protected.

- Battery lifetime: Approximately 2 years
- Replaceable CR2450 battery
- Alarm volume: >95db
- Full alarm: 5 min.
- Pre-alarm: 3 short beeps
- AM (58kHz) / RF (8.2MHz)
- Covers product up to 48mm in diameter or circumference of 150mm
- Loop Tag Alarm is black
- Disarms using standard siffron magnetic detacher

Shogun Tag™

The cost-effective Shogun Tag™ is a small yet powerful product protector. Smaller than competitive products, the patent-pending Shogun Tag's provides 3-alarm protection with a reduced footprint, which is ideal for smaller products and retaining merchandising planograms.

- 3-alarm protection:
  - Alarm 1 - Plunger
  - Alarm 2 - EAS gate
  - Alarm 3 - Tag alarms when reacting with the EAS gate
- Reduced footprint for planogram and merchandising value
- No cables to distract from product packaging
- Customers access product without staff assistance
- Replaceable adhesive back
- Multi-product category uses
- Low-cost solution
- Shogun Tag™ is black
- Tag is 1.26" W x 1.57" L x .38" H and smaller than competitive products
- Disarms with magnetic detacher

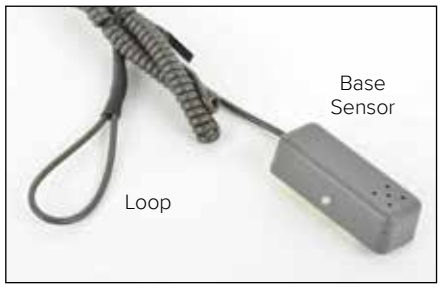

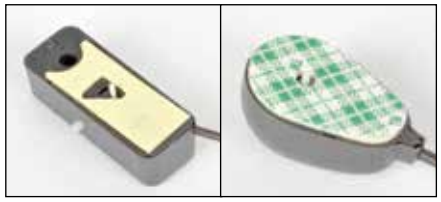

Item No.	Ref. No.	Style	Dimensions	Pack

Door Open Too Long Causes Alert/Alarm

Door Closed

Alert/alarm housing and door attachment

Cooler Door Chime

Doors being left open in the retail environment can cause many issues. For items in coolers and freezers, it can lead to spoilage due to product not maintaining its proper temperature. For other areas, it can mean there is suspicious activity occurring and product may not be protected.

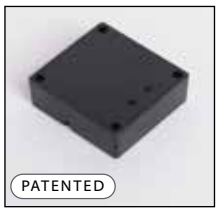

- Door Chime activates when the door has been left open a predetermined amount of time, ensuring that store staff are only alerted when there is an issue
- A secondary alarm activates after an extended time where the initial chime has not been remedied
- Magnetic base senses closed door
- Units have 3mm double sided 3-M foam tape to adhere to the surface
- Uses 2 “AAA” batteries (not included)
- 100+ dB volume

Operation Cycle

- Door open = no notification “ding”
  - This prevents continuous chirping and employees becoming disengaged to the security device
- 5 seconds, door remains open = “Door Chime” one cycle
- 10 seconds, door remains open = “Alarm Phase”
  - Remains on until the distance is less than 25mm between the receiver and activation device

Item No.	Ref. No.	Dimensions	Finish	Pack
4679284803	R16-CDC-1W	1.75” W x 3.5” L x .5” H Alarm Housing .5” W x 1.75” L Door Attachment	White	1

Insert tether into channel and install onto display. Works with all Heavy Duty Tethers.

If tether cable is cut it retracts past alarm box. Extended alarm will sound until it is turned off with remote control.

Alarm for Tether Systems

Alarm

- Alarm can be reset and used multiple times
- Triggers an audible extended alarm when a tether is cut and retracts past the alarm box
- Designed to allow customers to review secured product as normal
- The alarm works with most existing tether systems (compatible tethers on pages 445-447) and can be reused with a new tether if existing tether is cut or damaged
- Mounting holes fit #6 screws (0.14” diameter hole x 0.6” deep)
- Clean low profile design doesn’t detract attention away from product
- Utilizes a simple plunger switch to trigger the alarm
- Extended alarm sounds until turned off with the use of a remote control
- Point remote control within 1”- 6” above the black sensor on top of the hook
- Includes replaceable battery (Type: CR2032); battery lasts up to one year
- Remote key (RJB-38) is sold separately

Remote Key

- Remote Key for powered Alarm for Tether Systems
- Sold separately

Self-Contained Alarming Tether - 36”

This all-in-one security system secures high-theft products that are tethered without the need for an expensive powered cable. The all-in-one design with integrated tether allows for quick and easy installation and can be reused only if tether remains undamaged.

- Triggers an audible extended alarm when the tether is cut and retracts past the alarm box
- 36” cable with grommet end
- Designed to allow customers to review secured product as normal
- Mounting holes fit #4 screws (0.124” diameter hole x 0.835” deep)
- Includes replaceable battery
- Includes battery release strip to save battery life during storage
- Battery lasts up to three years

P.O.P. Security™ Invisi-Shield® System

Protect high-loss product with siffron's P.O.P. Security™ Invisi-Shield® System. Sliding panels prevent "shelf sweeping" theft, while providing easy product access for legitimate customers. Crystal-clear "invisible" panels provide an unobstructed view of consumer product.

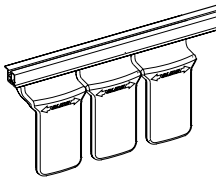

- System secures high-value, high-theft product, while allowing customer access to product for purchase
- Designed to install easily with minimal to no impact on existing planogram
- Panels available for narrow, wide, or tall product; feature contoured edges for comfortable shopping
- Optional accessories such as end panels, locking panel and security bar cover provide additional security by limiting access to product
- High-impact clear plastic panels are nearly unbreakable, even in high-traffic environments
- Additional languages can be imprinted on panels with minimum run quantities

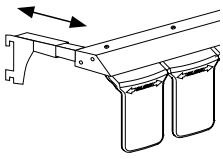

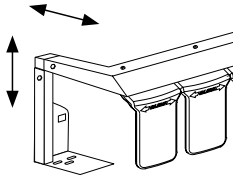

A1 Under-Shelf Style Rail for Gondola Shelf with Perforations

A2 Gondola Upright Style Bar with optional flat security cover

A3 Standard Shelf-Top Style Bar with optional domed security cover

A Panel Rails & Mounting Bars

A1. Under-Shelf Style Rail

- Mounts seamlessly to the underside of standard perforated gondola shelves with minimal loss of vertical merchandising
- Required for styles A2 and A3

A2. Gondola Upright Style Bar

- Inserts into the slots on standard gondola uprights
- Designed for pegged product, but can also protect a top shelf when sufficient slots are available
- Unit telescopes to serve multiple shelf depths

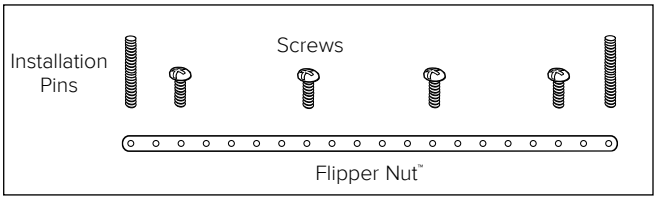

A3. Standard Shelf-Top Style Bar

- Attaches at the back of the perforated shelf it protects
- Designed for top shelves when the Gondola Upright style cannot be installed because slots in the upright are not available
- Unit has adjustable height and depth

Item No.	Ref. No.	Description	Finish	Pack

Square/Oval Can

P.O.P. Security™ Invisi-Shield® Panels can be added to small can units for an additional layer of security*

*Call for details

Infant Formula Merchandiser

Designed to meet the growing challenge of displaying high-theft items in a way that not only protects the merchandise, but also makes it accessible to customers.

- Single dispensing prevents shelf sweeping and deters shoplifting
- Gravity feed design self-faces product
- Optional P.O.P. Security™ Invisi-Shield® Panels provide added security for small cans
- Push lever tilts can forward for dispensing
- Merchandiser locks to prevent unauthorized access to inventory
- Incorporated fixture “lock down” option prevents unauthorized dispensing during reduced staffing, evening hours, or in very high-theft areas (not for use with Invisi-Shield®)
- Merchandiser hooks directly to the gondola uprights; no tools or assembly required

Round Hood

Square Hood

Spiral Anti-Sweep Hook™

The Spiral Anti-Sweep Hook™ is a versatile loss prevention solution that can accommodate multiple SKU's within a product category. When the knob is turned, an audible clicking sound alerts sales associates that someone is shopping the product and the product is being dispensed.

- Each knob turn draws product forward, releasing a single package while alerting store personnel if multiple products are being dispensed
- Eliminates sweeping through integrated dispensing coil
- Mechanical audible alert when shopped
- Prevents cutting of hang tab through integrated enclosure
- Spiral Anti-Sweep Hook™ does not require assistance from store associate
- Available in 2" W narrow profile Round Hood style with two mounting prongs or 3" W Square Hood style with three mounting prongs
- Coil spacing for Round Hood is .85"; coil spacing for Square Hood is .43"
- Steel hook, bracket and adapter; clear polycarbonate hood
- Attaches securely to pegboard (bracket included)
- Mounting adapters are available to attach hooks to: Wire Fastrack®, Mega Bar™, slatwall and Madix crossbar (mounting adapters are sold separately)

One Shot™ normal shopping product release.

Unique One Shot™ trigger rises to form a stopper to prohibit product sweep.

One Shot™ Hook

One Shot™ Hook is designed specifically to prevent sweep. Using a stop trigger mechanism to only allow one product to be removed at a time, the One Shot™ Hook is an economical and effective way to approach loss prevention. Use in conjunction with the Locking Back for extra protection.

- Works as a normal peghook when single products are removed
- Will not interfere with a normal shopping experience
- Straight entry locking hook
- Adapts to Fast-Flip™ Label Holders
- Product will have to be removed one at a time
- No tools required
- Locking back sold separately

Item No.	Ref. No.	Description	Finish	Pack

new

Step 1: Install back into the pegboard

Step 2: Insert display hook

Step 3: Snap on lock

Locking Fastback®

Locking Fastback® is composed of a 2-piece assembly that snaps over the hook insert, preventing shoplifters from removing the entire hook (and the merchandise along with it).

- Reusable and effective, the Locking Fastback® is a perfect solution for cost effective loss prevention
- Straight entry design
- Secures hook to pegboard
- No tools required
- Works with all R33 series peghooks in .186" and .212 diameter, as well as a variety of security hooks.

Can be used with:

Fastback®

SONR™

One Shot™

Stop Locks

Swing Lock

First Line™ Security Swing Lock

The Swing Lock attaches to existing scan hooks (from .186" through .250" wire diameters), and features a durable metal swing arm that secures the lock around the hook, preventing removal of product.

1. Hinge-feature allows for easy installation
2. Metal swing arm for durability
3. Universal Key

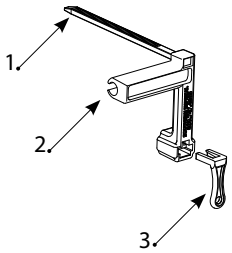

Item No.	Ref. No.	Dimensions	Finish	Pack
4666922885	RSHL-001	3" H x 1.75" W x 1.75" D	Gray	10

First Line™ Security Hook Lock

This economical solution utilizes a durable plastic construction that securely snaps onto the scan arm (from .186" through .250" wire diameters) and ratchets around the scan hook, requiring a key to access merchandise.

1. Ratchet design for secure fit
2. Reinforced plastic arm snaps onto scan arm of hook
3. Universal Key

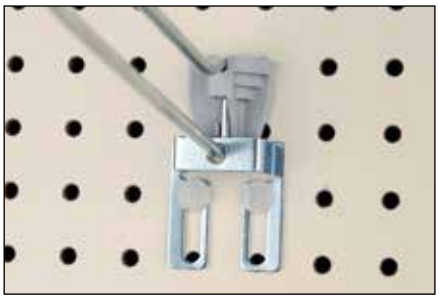

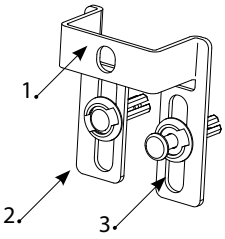

Item No.	Ref. No.	Dimensions	Finish	Pack
4660283935	RSHL-003	2.375" H x .625" W x 2" D	Gray	10

First Line™ Security Peg Back Lock

The Peg Back Lock secures the hook to the pegboard. Simply slide it over the bottom wire of a scan hook and use the included push pins to lock it in place.

1. Easily slide over lower arm of scan hook
2. Steel construction for durability
3. Push pin design expands on entry into pegboard and locks in place

Item No.	Ref. No.	Dimensions	Finish	Pack
4669882157	RSHL-004	2" H x 1.5" W	Galv.	10

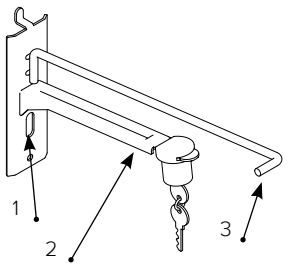

First Line™ Security Lock Hooks

At siffron, we've developed the First Line™ Security Solutions to combat shoplifting. They are designed to deter shoplifters at the initial stage of the theft. With their strong locks and ability to be secured to the fixtures, these security solutions make it harder for criminals to acquire the product, thus deterring theft.

- Features heavy-duty .250" diameter wire with a locking end to prevent products from being removed
- Available in standard stem and "butterfly" style stem

Security Lock Hook with Butterfly-Style Stem

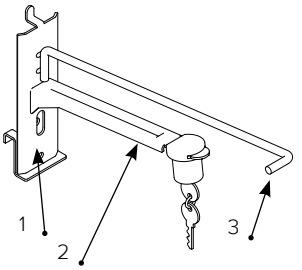

RSL-X-SCN

1. Insert screw and anchor to secure to pegboard.
2. For butterfly and delta slotted products.
3. Use Quad-Wire, Fast Tag™, or R35 label holders.

Slatwall Security Lock Hook with Butterfly-Style Stem

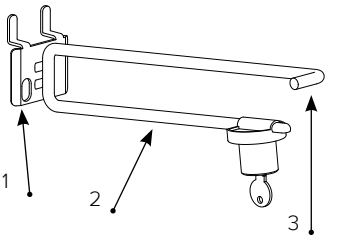

RSL-X-SCN-SW

1. Insert screw into adapter to secure to slatwall.
2. For butterfly and delta slotted products.
3. Use Quad-Wire, Fast Tag™, or R35 label holders.

Security Lock Hook Standard Scan Hook

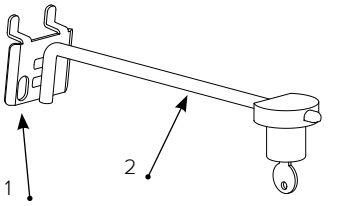

RBR2SH-X

1. Insert screw and anchor to secure to pegboard.
2. .250 diameter wire for standard peg items.
3. Use Quad-Wire, Fast Tag™, or R35 label holders.

Security Lock Hook Standard Single Stem Hook

RBR2SSH-X

1. Insert screw and anchor to secure to pegboard.
2. .250 diameter wire for standard peg items.

PLUS + POINT

Universal Keys
All locks feature a universal key design that will work with all of the lock hooks. Custom keys can be made to order.

First Line™ Security Lock Bar

The Security Lock Bar allows retailers to display high ticket items without the worry of consumer theft. This unique lock bar system allows the entire product package to be seen and held while remaining safely secured to the fixture.

- Hinged front gate locks to secure product
- Hooks secure to bar and slide into position
- Tab insert secures fixture to gondola uprights
- One-piece design fits into standard 36” and 48” width gondola uprights.
- Includes twelve 10” hooks for 48” version, and eight 10” hooks for the 36” version and two keys

Item No.	Ref. No.	Dimensions	Finish	Pack
4667661964	RLB-36-0810-A	36” W x 10.5” D x 3.5” H	Almond	1

First Line™ Security Cover

The Security Cover provides instant anti-sweep protection for merchandise on a shelf. The height of the cover, as well as the amount the cover extends over the product, is fully adjustable.

- The Security Cover bolts to standard retail shelving perforations and features metal and thick acrylic construction
- The clear acrylic cover allows for product visibility, while its downturn at thefront edge provides a rigid beam to reduce bending of cover so it can’t be lifted up to retrieve product
- The Security Cover is ideal as a stand alone solution, or in conjunction with a self-facing, product management system or any front edge shelf fence
- Ideal to use with a shelf management system such as siffron’s IMPulse™ Trackless Pusher System or Power Zone® Kwik-Set™ Self-facing System

Item No.	Ref. No.	Dimensions	Finish	Pack
4673229954	RASC-48-14-A	48” W x 14” D	Almond	1

Fake Security Camera

Utilize the fake security camera to provide the illusion of active security monitoring. The realistic appearance and flashing red light of the fake camera provides an immediate deterrence to potential thieves, as people tend to be more cautious if they believe they are being monitored or recorded.

- Mounting hardware included
- Batteries sold separately
- No wiring needed
- Press the camera unit to activate the battery powered, flashing red light
- Special pole attachment fits standard pole thread and is ideal for placement of camera on ceiling grid

Item No.	Ref. No.	Dimensions	Finish	Pack
4645455971	RDCR-040M	4.5” D x 3” H - Fake Camera	Black	1
4676003181	R-LBC-200	6” H x 3.5” W - Pole	Yellow	1

CCD Fake Security Camera

Installing realistic-looking fake security cameras will deter crime and prevent property damage by fooling criminals into believing you have a real surveillance system. It’s impossible to tell the difference between our CCD Fake Security camera and the real thing!

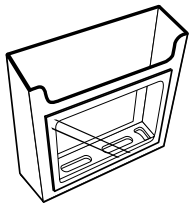

- Increase security presence without high costs
- Pivoting arm allows the camera to be adapted to multiple locations and angles
- Wall mounted bracket includes installation hardware
- Flashing LED light and fake wire create the illusion of a functioning camera
- Easy installation with no wiring required
- Battery powered LED uses two AA batteries
- Slide shield back to access battery compartment
- Batteries are not included

Item No.	Ref. No.	Dimensions	Finish	Pack
4649324583	RDCR-030	7” H x 3.25” W x .9.75” D	Silver	1

Take-One™ Literature Box

- Maintains product exposure, even if stock is located at the pharmacy or service counter
- Customer takes card from display to pharmacy or service counter to purchase product
- Maintains existing plan-o-gram
- Literature Box clips on shelf with two fasteners (included) to hold printed cards
- Brand label kits are also available, call for more information
- Cards sold separately

Item No.	Ref. No.	Dimensions	Finish	Pack
9920519776	-	3.75" W x 4" H x 1.1875" D	White	1

Scan & Serve™ Tear Pad System

The Scan & Serve™ Tear Pad System provides a secure and visually appealing solution for high-theft categories such as: razor blades, allergy and digestive medications, skin care products and cosmetics. Versatile design allows for attachment to perforated shelf edge, and bow bar.

- Maintains product exposure, and serves as a reminder for customers to inquire about items secured behind the counter or pharmacy
- Customer simply removes a sheet from the tear pad and takes it to the counter or pharmacy for purchase
- Holds tear pad with plenty of space for product imagery and key product information (tear pad, channel and header graphics are sold separately)*
- Scan & Serve™ System attaches to shelf perforations with two fasteners (included)
- Side panels can be removed to allow for attachment to bow bars
- Adapters are available to attach the unit to pegboard or Uniweb panels (sold separately)*

Pallet Wrap

Put the finishing touch on your pallet display by concealing the base of your existing pallet to make it more attractive and draw more attention to your products. Pallet Wrap is designed to wrap around the bottom of your pallet display base to keep it hidden and provide a visually pleasing addition to your case stack.

- Elastic bands are adjustable to fit most common pallet sizes.
- Easy, one-person installation.
- More durable than paper or corrugated wraps.
- Adjustable to fit most full and half pallet sizes.

Double-Sided Clear Adhesive Film Tape/Permanent

- Aesthetically pleasing clear thin film – create nearly invisible bond lines
- Ideal for most smooth surfaces including clear plastics (such as literature holders) and UV coatings
- Double-sided, high-bond film tape with permanent clear adhesive on both sides
- Bonds to most plastics and acrylics and is stable in UV light
- Tape has a red backing which pulls off during application
- Continuous roll delivers flexibility to cut to any size
- Clear film tape in 180’ continuous roll; sold in full rolls only

Item No.	Ref. No.	Dimensions	Finish	Pack
8601948508	-	.5” W x .008” D	Clear	Roll

Additional sizes can be made to order (minimum quantities apply.)

Double-Sided Clear Adhesive Tape/Permanent

- Aesthetically pleasing tape – create nearly invisible bond lines
- Ideal for bonding clear plastics (e.g. literature holders) and is stable in UV-light
- Double-sided clear high bond tape roll with permanent acrylic adhesive on both sides
- Good conformability on irregular surfaces
- Bonds to most plastics and acrylics
- Tape has a red backing which pulls off during application
- Continuous roll delivers flexibility to cut to any size
- Clear tape in 108’ continuous roll; sold in full rolls only

Item No.	Ref. No.	Dimensions	Finish	Pack
8601948500	-	.5” W x .040” D	Clear	Roll
8601502100	-	1” W x .040” D	Clear	Roll

Additional sizes can be made to order (minimum quantities apply.)

Double-Sided Foam Tape/Permanent

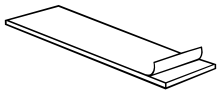

- Double-sided foam tape roll with high tack permanent adhesive on both sides
- Bonds to low surface energy plastics, powder-coated materials, and some UV coatings
- Typical applications include paper, cardboard, plastic, and PVC foam boards
- Available in multiple sizes; continuous roll delivers flexibility to cut to any size
- White foam tape in 216’ continuous roll; sold in full rolls only

Item No.	Ref. No.	Dimensions	Finish	Pack

Terms & Conditions

All quotations, orders and sales are subject to our Terms and Conditions, the sole terms and conditions under which siffron and its subsidiaries make all sales. For customers with access to the Internet, our Terms and Conditions are available at **http://www.siffron.com/pages/tandc** for your review. For customers without access to the Internet, you may request a copy of our Terms and Conditions to be emailed, faxed, or mailed to you by contacting siffron at **info@siffron.com** or **800.422.2547**. Any customer that does not request a copy of our Terms and Conditions to be sent by email, fax, or mail will be bound by the online Terms and Conditions upon placement of your order.

For ordering information go to www.siffron.com or call 800.422.2547

Shipping

Domestic Destinations – Domestic, same-day shipping is guaranteed for in-stock products placed over the phone by the cut-off times listed below. Same-day shipping is our goal for web, e-mail and fax orders but cannot be guaranteed. siffron does guarantee in-stock web, e-mail and fax orders will ship the next business day.

Domestic Shipping		
Shipment Type	In-Stock Order Submitted M-F via Phone	Ship Day
Small parcel, air	4:00 p.m. EST	Today
LTL	2:00 p.m. EST	Today
Truck load, container	2:00 p.m. EST	Next Business Day

International Destinations – Shipments with international destinations require additional notice for shipment. In addition, customers shipping LTL or larger to international destinations are required to provide broker name and phone number for freight, and are responsible for customs clearance and all related fees.

International Shipping		
Shipment Type	In-Stock Order Submitted Today	Ship Day
Small parcel, air, LTL	2:00 p.m. EST	Next business day
Truck load, container	2:00 p.m. EST	Two business days

Carriers - All orders are shipped F.O.B. siffron facilities. siffron will use the carrier designated by Customer or, in case Customer does not designate a carrier, siffron will use a carrier of its own choice. In any event, siffron shall either bill the freight charges to Customer separately or add to the invoice as an additional item. Freight charges are always net due upon receipt of invoice. All express shipping arrangements must be specified by Customer at the time the order is placed.

Handling - Customer shall bear the cost of any special packing or handling if such is requested by Customer and other shipping related costs charged by the carrier such as charges for discrepancies in account numbers, inaccurate or incomplete destination addresses or misleading information that caused erroneous deliveries, storage fees and all other additional costs and expenses.

Loss or Damage - Risk of loss or damage shall transfer to Customer upon tender of products to Customer, Customer's representative, or common carrier. In all cases, Customer assumes all risk of loss or damage to products in transit, and the responsibility for filing a claim with the carrier. In the event of freight loss or damage, Customer shall notify the carrier immediately, and mark the bill of lading "damaged." When receiving a shipment, note the number of cartons and/or pallets shipped on the bill of lading in relation to the number of cartons and/or pallets received. siffron shall, at Customer's cost, ship replacement products upon Customer's request.

Important Product Information

siffron’s products are intended only for indoor use at ambient temperatures. We do not recommend outdoor use of our products or use in high temperature environments, such as exterior windows exposed to sunlight and areas with intense electrical lighting. If you have any questions concerning the use of siffron’s products outdoors, or at temperatures other than ambient, please call us.

Maximum recommended weight for all ceiling banner systems and accessories is 3 lb per ceiling attachment.

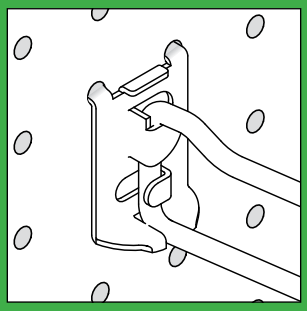

To maximize performance of permanent foam adhesive:

1. Install between 65˚F and 100˚F (use in temperatures between 0˚F and 130˚F only)
2. Surface must be cleaned with isopropyl alcohol (or other cleaner that does not leave a residue) prior to installation
3. Do not expose to direct sunlight

Hook Length

At siffron, we understand that when you want to buy a hook of a particular length, that you are intending to use that much of the hook to hang merchandise. That's why when you buy a hook from siffron, you get that much usable space for your product.

Fastback® 6" Scan Hook
R33-6-186

6" All-Wire Hook
R21-6-M

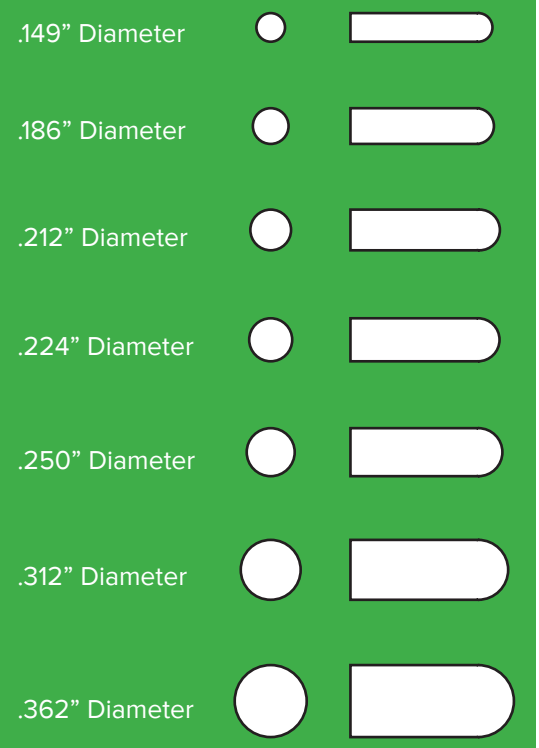

For instance, when you buy a 6" hook from siffron, you get 6" of wire to merchandise with. Other hook manufacturers will sell a 6" hook, but the 6" is the overall length, and may not carry the pack-out you intend.

That's what makes siffron the world's leading manufacturer of Display Hooks and Accessories. We understand and listen to our customers, provide the best products and service, and strive to provide useful tools to assist in your product and merchandising plans.

For more hooks go to www.siffron.com

Fast-Flip™ Label Holder
For use on .149" and .186" diameter "T" style scan arms.

fresh area essentials

total retail solutions® catalog

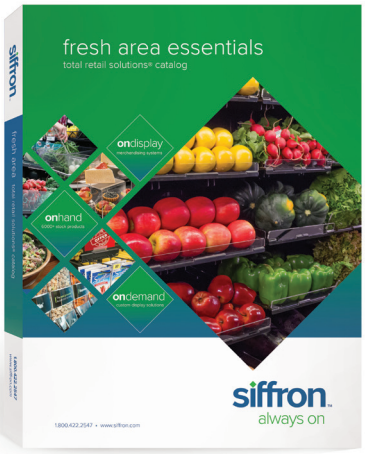

Judging by the placement of enticing fresh displays at the entrance of nearly every grocery store, retailers are clearly aware that the fresh area is one of the most important sections of a store's layout. But, what makes this area so appealing to customers? While location at the store entrance seems to be the most important factor, presentation follows a close second. Here are six factors to keep in mind when setting or merchandising your fresh area:

- Keep displays looking full
- Maintain a flexible layout
- Merchandise vertically
- Refrigerate appropriately
- Use ample lighting
- Don't forget signage

Our Fresh Area Essentials: Total Retail Solutions® catalog includes a wide variety of products to help you maximize impact with minimal use of space.

siffron™

8181 Darrow Road
Twinsburg, OH 44087

get **on**board!

We specialize in the visual presentation of merchandise, a critical component in how shoppers evaluate and ultimately make purchasing decisions. We are recognized by the world's leading retailers as a strategic partner for total retail solutions. No other company in the retail industry offers as much versatility, innovation, and comprehensive value for its customers.

With 6,000 stock display and merchandising solutions – including products for loss prevention, product facing, lighting and fresh area merchandising, as well as a wide variety of retail essentials – siffron is the ultimate source for retail solutions. These solutions address current retail challenges from increasing space, product turns and brand recognition to reducing theft, spoilage, and labor.

Our expertise and experience provide the flexibility and scalability you need to adapt to your changing environment. The retail industry continues to evolve, and siffron remains a trusted partner to top brands and retailers around the globe for their retail display solutions.
